COMMISSION REGULATION (EC) No 2499/2007

of 12 June 2007

implementing Council Regulation (EC) No 1085/2006 establishing an instrument for pre-accession assistance (IPA)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 1085/2006 of 17 July 2006 establishing an instrument for pre-accession assistance (IPA)¹ and in particular Article 3(3) thereof,

Whereas:

- (1) The purpose of Regulation (EC) No 1085/2006 (hereinafter referred to as “the IPA Regulation”) is to provide pre-accession assistance to beneficiary countries and support them in their transition from Annex II to Annex I of that Regulation and through to membership of the European Union.
- (2) Given that the IPA Regulation is the sole pre-accession instrument for the 2007-2013 period, the rules for the programming and delivery of assistance within the framework of that Regulation should be streamlined and brought together in one single implementing regulation covering all five components established in the IPA Regulation (hereinafter referred to as “the IPA components”).
- (3) To ensure coherence, co-ordination and efficiency, especially in the context of the action plan of the Commission towards an Integrated Internal Control Framework, common rules for the implementation of assistance under the IPA Regulation are required for all five IPA components. The specific features of the individual IPA components should nevertheless be taken into account.
- (4) Differences in the socio-economic, cultural and political contexts within beneficiary countries should also be taken into account, since such differences give rise to a need for a specific approach and differentiated support depending upon a country's status as candidate or potential candidate country, political and economic context, needs, and absorption and management capacities.
- (5) Assistance granted under the IPA Regulation should be in conformity with Community policies and actions in the field of external assistance.
- (6) Assistance should fall within the scope laid down in Article 2 of the IPA Regulation. It should be targeted to support a wide range of institution building measures in all beneficiary countries. It should strengthen democratic institutions and the rule of law,

¹ OJ L 210,31.07.2006, p.82

reform public administration, carry out economic reforms, respect human and minority rights, encourage gender equality and non-discrimination, promote civil rights and the development of civil society, support advanced regional cooperation and reconciliation and reconstruction, and contribute to sustainable development and poverty reduction, as well as to a high level of environmental protection in these countries.

- (7) Assistance for candidate countries should additionally focus on the adoption and implementation of the full *acquis communautaire*, and compliance with the accession criteria; it should also help prepare candidate countries for the programming, management and implementation of the European Regional Development Fund, Cohesion Fund, European Social Fund and Rural Development that will be made available to them upon accession.
- (8) Assistance for potential candidate countries should promote a degree of alignment with the *acquis communautaire* and approximation with the Accession criteria, as well as operations of a similar nature to those which will be available for candidate countries under the IPA components concerning regional development, human resources development and rural development.
- (9) In order to guarantee consistency, complementarity and concentration of assistance, the coherence and co-ordination of actions carried out in a given country under the different IPA components should be ensured at the multi-annual planning level provided for by Article 6 of the IPA Regulation.
- (10) The Commission and the beneficiary countries should sign framework agreements in order to lay down the principles for their co-operation under this Regulation.
- (11) It needs to be made clear which of the management methods laid down in Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities² shall apply in relation to each of the components as provided for under the IPA Regulation.
- (12) In particular, as the IPA Regulation provides for assistance in the context of the pre-accession process, decentralised management of funds should be applied, where possible, in its implementation, with a view to enhancing ownership of the management of assistance by the beneficiary countries. It should, however, be possible to apply centralised, joint and shared management where appropriate.
- (13) In the event of decentralised management, the respective roles of and requirements from the Commission and the beneficiary countries need to be made clear. The provisions relating to the beneficiary countries should be included in the framework, sectoral or financing agreements.
- (14) It is necessary to lay down detailed rules for the financial management of funds under the IPA Regulation according to which management method is to be applied to the implementation of the assistance. The obligations of the beneficiary countries in this respect should be laid down in the framework, sectoral or financing agreements.

² OJ L 248, 16.09.2002, p. 1, as amended by Council Regulation No 1995/2006 of 13.12.2006 (OJ L 390, 30.12.2006, p. 1)

- (15) In addition to the general evaluation of the IPA Regulation as provided for in Article 22 thereof, assistance under the said regulation should be monitored and evaluated regularly. The programmes should in particular be subject to evaluation by specific monitoring committees, and the overall implementation of assistance under the IPA Regulation should be supervised on a regular basis.
- (16) The visibility of the IPA assistance programmes and their impact on the citizens of the beneficiary countries is essential to ensure public awareness of EU action and to create a consistent image of the measures concerned in all beneficiary countries, in line with the action plan of the Commission 'Communicating Europe', the white paper of the Commission on a European communication policy and the enlargement communication strategy for 2005-2009.
- (17) As the IPA Regulation applies from 1 January 2007, the Commission rules for the implementation of that Regulation should apply from 1 January 2007 as well.
- (18) The provisions laid down in this Regulation are in accordance with the opinion of the IPA Committee.

HAS ADOPTED THIS REGULATION:

PART I - COMMON PROVISIONS

1. 'beneficiary country': any country listed in either of the annexes I and II to the IPA Regulation;

- Assistance shall comply with the budgetary principles laid down in the Council Regulation (EC, Euratom) No 1605/2002.
- Assistance shall be consistent with the needs identified in the enlargement process and absorption capacities of the beneficiary country. It shall also take account of lessons learned.

- Any discrimination based on sex, racial or ethnic origin, religion or belief, disability, age or sexual orientation shall be prevented during the various stages of the implementation of assistance.
- The objectives of pre-accession assistance shall be pursued in the framework of sustainable development and the Community promotion of the goal of protecting and improving the environment.

Article 4
Priorities for assistance

Assistance for a given beneficiary country shall be based on the priorities identified in the following documents, where they exist:

- the European partnership,
- the accession partnership,

Account shall also be taken of the priorities set out in the national strategies where they are compatible with the pre-accession objectives and scope as laid down in the IPA Regulation.

Chapter II: General Framework for Implementation

Article 5

Multi-annual indicative planning documents

1. The multi-annual indicative planning document shall ensure the necessary coherence and complementarity between the IPA components in a given beneficiary country. In particular, it shall reflect the principles set out in Article 9.
2. In accordance with the provisions of Article 20(3) of the IPA Regulation and in the context of the consultation laid down in Article 6(1) of that Regulation, the Commission shall endeavour to allow sufficient time for the relevant stakeholders, including Member States, to provide their comments on the document.
3. Multi-annual indicative planning documents shall include, for each country concerned:
 - (a) a general background, including a brief description of the consultation process with and within the beneficiary country;
 - (b) a description of the European Union co-operation objectives in the country concerned;
 - (c) a consolidated assessment of the challenges, needs and relative importance of the priorities for assistance;
 - (d) an overview of past and ongoing European Union co-operation, including an analysis of needs and absorption capacity and lessons learned, and the relevant activities of other donors, where this information is available;
 - (e) for each component, a description of how the consolidated assessment as referred to in point (c) above is translated into strategic choices and a description of the major areas selected for assistance in the country concerned, and of the results anticipated;
 - (f) indicative financial allocations for the major areas of intervention under each IPA component.
4. Regional and horizontal programmes may be covered by separate and specific multi-beneficiary multi-annual indicative planning documents.

Article 6

1. Multi-annual indicative planning documents shall be implemented through multi-annual or, depending on the component, annual programmes, as laid down in Article 7 of the IPA Regulation.

2. Multi-annual programmes or annual programmes shall consist in documents submitted by the beneficiary country, or prepared by the Commission in the case of regional and horizontal programmes, and adopted by the Commission. Programmes shall present a coherent set of priority axes, any appropriate measures or operations and a description of the financial contribution which are needed in order to implement the strategies defined in the multi-annual indicative planning documents.

Programmes are subdivided into priority axes, each of which defines a global objective to attain, and which, depending on the IPA component considered, shall be implemented through measures, which may be subdivided into operations, or directly through operations.

Operations shall comprise a project or a group of projects implemented by the Commission, or initiated or initiated and implemented by one or more final beneficiaries, allowing achievement of the goals of the measure and/or the priority axis to which it relates.

3. In line with Article 20 of the IPA Regulation, the relevant stakeholders, including Member States, shall be consulted in the process of programming, in accordance with the provisions laid down in Part II. Where necessary, the framework agreement may be complemented by a sectoral agreement, or sectoral agreements, covering component specific provisions.
2. Assistance under the IPA Regulation can only be granted to the beneficiary country after the framework agreement referred to in paragraph 1 has been concluded and has entered into force.

Where a sectoral agreement has been concluded with the beneficiary country, assistance under the IPA Regulation can only be granted, under the IPA component concerned by the sectoral agreement, after the entry into force of the framework agreement and the sectoral agreement.

Article 9

Coherence of implementation of assistance

1. Assistance under the IPA Regulation shall be consistent and co-ordinated within and between the IPA components, both at planning and programming levels.
2. Any overlap between actions covered by different components shall be avoided and no expenditure shall be financed under more than one operation.

Article 10

General principles for implementation of assistance

1. Unless otherwise provided for in paragraph 2, 3 and 4, decentralised management, where the Commission confers the management of certain actions on the beneficiary country, while retaining overall final responsibility for general budget execution in accordance with Article 53c of Regulation (EC, Euratom) No 1605/2002 and the relevant provisions of the EC Treaties, shall apply to the implementation of assistance under the IPA Regulation.

For the purposes of assistance under the IPA Regulation, decentralised management shall cover at least tendering, contracting and payments.

In the event of decentralised management, operations shall be implemented in accordance with the provisions laid down in Article 53c of Regulation (EC, Euratom) No 1605/2002.

2. Centralised management as defined in Article 53a of Regulation (EC, Euratom) No 1605/2002 may be used under the transition assistance and institution building component, in particular for regional and horizontal programmes, and under the cross-border co-operation component. It may also be used for technical assistance under any of the IPA components.

Under centralised management, operations shall be implemented in accordance with the provisions laid down in Articles 53(a), 53a and 54 to 57 of Regulation (EC, Euratom) No 1605/2002.

3. Joint management, as defined in Article 53d of Regulation (EC, Euratom) No 1605/2002 may be used under the transition assistance and institution building component, in particular for regional and horizontal programmes, for programmes involving international organisations.

In the event of joint management with international organisations, operations shall be implemented in accordance with the provisions laid down in Articles 53(c) and 53d of Regulation (EC, Euratom) No 1605/2002.

4. Shared management as defined in Article 53b of Regulation (EC, Euratom) No 1605/2002 may be used under the cross-border co-operation component, for cross-border programmes involving Member States.

Under shared management with a Member State, operations shall be implemented in accordance with the provisions laid down in Articles 53(b), 53b and Title II of Part two of Regulation (EC, Euratom) No 1605/2002.

Chapter II: Management and Control Systems

SECTION 1: DECENTRALISED MANAGEMENT

Sub-section 1 Accreditation and conferral of management powers

Article 11 Common requirements

1. Before deciding to confer management powers relating to a component, a programme or a measure on the beneficiary country, the Commission shall satisfy itself that the country concerned meets the conditions referred to in Article 56(2) of Regulation (EC, Euratom) No 1605/2002, in particular as regards the management and control systems established, and that the accreditations as laid down in Articles 12 and 13 are in force.
2. For that purpose, the management and control systems set up in the beneficiary country shall provide for effective controls in at least the areas set out in the Annex. Provisions on other areas which have been laid down in the sectoral or financing agreements shall apply in addition to this Regulation.
3. Where specific persons have been given responsibility for an activity in relation to the management, implementation and control of programmes, the beneficiary country shall enable such persons to exercise the duties associated with that responsibility, including in cases where there is no hierarchical link between them and the bodies participating in that activity. The beneficiary country shall, in particular, provide those persons with the authority to establish, through formal working arrangements between them and the bodies concerned:
 - (a) an appropriate system for the exchange of information, including the power to require information and a right of access to documents and staff on the spot if necessary;
 - (b) the standards to be met;
 - (c) the procedures to be followed.
4. Any other component specific requirements which have been established in sectoral agreements or the financing agreements shall apply in addition to this Regulation.

Article 12

Accreditation of the national authorising officer and the national fund

1. The competent accrediting officer as referred to in Article 24 shall be responsible for the accreditation of the national authorising officer described in Article 25, both as the head of the national fund in accordance with Article 25(2)(a) and with regard to his capacity to fulfil the responsibilities laid down in Article 25(2)(b). The accreditation of the national authorising officer shall cover the national fund described in Article 26.
2. Prior to accrediting the national authorising officer, the competent accrediting officer shall satisfy himself that the applicable requirements set out in Article 11 are fulfilled, supported by an audit opinion drawn up by an external auditor functionally independent from all actors in the management and control systems. The audit opinion shall be based on examinations conducted according to internationally accepted auditing standards.
3. The competent accrediting officer shall notify the Commission of the accreditation of the national authorising officer, not later than the notification of the accreditation of the first operating structure as described in Article 13(3). The competent accrediting officer shall provide all relevant supporting information required by the Commission.
4. The competent accrediting officer shall immediately inform the Commission of any changes concerning the national authorising officer or the national fund. Where a change affects the national authorising officer or the national fund in relation to the applicable requirements as set out in Article 11, the competent accrediting officer shall send to the Commission an assessment of the consequences of such a change on the validity of the accreditation. Where such a change is significant, the competent accrediting officer shall also notify the Commission of his decision concerning the accreditation.

Article 13

Accreditation of the operating structure

1. The national authorising officer shall be responsible for the accreditation of the operating structures as referred to in Article 28.
2. Prior to accrediting an operating structure, the national authorising officer shall satisfy himself that the requirements set out in Article 11 are fulfilled by the operating structure concerned. This assurance shall be supported by an audit opinion drawn up by an external auditor functionally independent from all actors in the management and control systems. The audit opinion shall be based on examinations conducted according to internationally accepted auditing standards.
3. The national authorising officer shall notify the Commission of the accreditation of the operating structures and shall provide all relevant supporting information required by the Commission, including a description of the management and control systems.

Article 14
Conferral of management powers by the Commission

1. Before the conferral of management powers, the Commission shall review the accreditations referred to in Articles 12 and 13 and examine the procedures and structures of any of the bodies or authorities concerned within the beneficiary country. This may include on-the-spot verifications by its services or subcontracted to an audit firm.
2. The Commission may, in its decision to confer management powers, set further conditions, with a view to ensuring that the requirements referred to in Article 11 are met. These further conditions must be fulfilled within a fixed period determined by the Commission for the conferral of management powers to remain effective.
3. The Commission Decision on the conferral of management powers shall lay down the list of the *ex ante* controls, if any, to be performed by the Commission on the tendering of contracts, launch of calls for proposals and the award of contracts and grants. This list may vary with the component or the programme. The *ex ante* controls shall apply, depending on the component or programme, until the Commission allows for decentralised management without *ex ante* controls as referred to in Article 18.
4. The Commission Decision may lay down provisions concerning the suspension or withdrawal of the conferral of management powers in relation to specific bodies or authorities.

Article 15
Withdrawal or suspension of the accreditation of the national authorising officer and the national fund

1. After the conferral of management powers by the Commission, the competent accrediting officer shall be responsible for monitoring the continuing fulfilment of all the requirements for this accreditation to be maintained and shall inform the Commission of any significant change related thereto.
2. If any of the applicable requirements set out in Article 11 are not, or are no longer, fulfilled, the competent accrediting officer shall either suspend or withdraw the accreditation of the national authorising officer, and shall immediately inform the Commission of his decision and of the reasons for his decision. The competent accrediting officer shall assure himself that those requirements are again fulfilled before restoring the accreditation. This assurance shall be supported by an audit opinion as specified in Article 12(2).
3. Where the accreditation of the national authorising officer is withdrawn or suspended by the competent accrediting officer, the provisions of this paragraph shall apply.

The Commission shall cease to make transfers of funds to the beneficiary country during the period when the accreditation is not in force.

During the period when the accreditation is not in force, all the euro accounts or the euro accounts for the components concerned shall be blocked and no payment made

by the National Fund from those euros accounts which are blocked shall be considered eligible for Community funding.

Without prejudice to any other financial corrections, the Commission may make financial corrections as laid down in Article 49 against the beneficiary country in respect of its past non-compliance with the requirements for the conferral of management powers.

Article 16

Withdrawal or suspension of the accreditation of the operating structures

1. After the conferral of management powers by the Commission, the national authorising officer shall be responsible for monitoring the continuing fulfilment of all the requirements for this accreditation to be maintained and shall inform the Commission and the competent accrediting officer of any significant change related thereto.
2. If any of the requirements set out in Article 11 are not, or are no longer, fulfilled, the national authorising officer shall either suspend or withdraw the accreditation of the operating structure concerned, and shall immediately inform the Commission and the competent accrediting officer of his decision and of the reasons for his decision.

The national authorising officer shall assure himself that those requirements are again fulfilled before restoring the accreditation concerned. This assurance shall be supported by an audit opinion as referred to in Article 13(2).

3. Where the accreditation of an operating structure is withdrawn or suspended by the national authorising officer, the provisions of this paragraph shall apply.

The Commission shall make no transfers to the beneficiary country of funds relating to programmes or operations implemented by the operating structure concerned while its accreditation is suspended or withdrawn.

Without prejudice to any other financial corrections, the Commission may make financial corrections as laid down in Article 49 against the beneficiary country in respect of its past non-compliance with the requirements and conditions for the conferral of management powers.

No new legal commitments made by the operating structure concerned shall be considered eligible during the period when the accreditation is not in force.

The national authorising officer shall be responsible for taking any appropriate safeguard measures regarding payments made or contracts signed by the operating structure concerned.

Article 17

Withdrawal or suspension of conferral of management powers

1. The Commission shall monitor compliance with the requirements set out in Article 11.

2. The total amount paid as pre-financing shall be reimbursed to the Commission if no payment application for the programme concerned is sent within 15 months of the date on which the Commission pays the first pre-financing amount. The Community contribution to the programme concerned shall not be affected by such reimbursement.
 4. The total pre-financing amount shall be cleared at the latest when the programme is closed. Throughout the lifetime of the programme, the national authorising officer shall use the pre-financing payment only to pay the Community contribution to expenditure in compliance with this Regulation.

Article 43

It shall inform the beneficiary country accordingly.

Article 44
Calculation of payments

Payments shall be calculated on the basis of the Community contribution to the financing of the operations concerned, up to the amount obtained by applying the co-financing rate laid down for each priority axis in the financing decision to the eligible expenditure, subject to the maximum Community contribution attached to each priority axis.

Article 45
Payment of the final balance

 - (b) expenditure in a certified statement of expenditure is linked to a serious irregularity which has not been corrected; or
 - (c) clarifications are needed regarding the information contained in the declaration of expenditure.
2. The beneficiary country shall be given the opportunity to present its observations within a period of two months before the Commission decides on a suspension in accordance with paragraph 1.
3. The Commission shall end the suspension when the beneficiary country has taken the necessary measures to remedy the deficiency, irregularity or lack of clarity referred to in paragraph 1.

If those measures have not been taken by the beneficiary country, the Commission may decide to cancel all or part of the Community contribution to the programme in accordance with Article 51.

Article 48
Retention of documents

All documents related to a given programme shall be retained by the beneficiary country for at least three years after the closure of the programme. This period shall be interrupted either in the case of legal proceedings or at the duly motivated request of the Commission.

2. A financial correction may arise following:
 - (a) identification of a specific irregularity, including fraud; or
 - (b) identification of a weakness or deficiency in the management and control systems of the beneficiary country.
3. If the Commission finds that expenditure under the programmes covered by this Regulation has been incurred in a way that has infringed applicable rules, it shall decide what amounts are to be excluded from Community financing.
4. The calculation and establishment of any such corrections, as well as the related recoveries, shall be made by the Commission, following the criteria and procedures provided for in Articles 51, 52 and 53. Other provisions on financial corrections which have been set down in sectoral or financing agreements shall apply in addition to this Regulation.

Article 105
Functions of the audit authority

1. The audit authority of a cross-border programme shall be functionally independent of the managing authority and the certifying authority and shall be responsible in particular for:
 - (a) ensuring that audits are carried out to verify the effective functioning of the management and control system of the cross-border programme;
 - (b) ensuring that audits are carried out on operations on the basis of an appropriate sample to verify expenditure declared;
 - (c) by 31 December each year from the year following the adoption of the cross-border programme to the fourth year following the last budgetary commitment:
 - (i) submitting to the Commission an annual control report setting out the findings of the audits carried out during the previous twelve month period ending on 30 June of the year concerned and reporting any shortcomings found in the systems for the management and control of the programme. The first report, to be submitted by 31 December of the year following the adoption of the programme, shall cover the period from 1 January of the year of adoption to 30 June of the year following the adoption of the programme. The information concerning the audits carried out after 1 July of the fourth year following the last budgetary commitment shall be included in the final control report supporting the closure declaration referred to in point (d) of this paragraph. This report shall be based on the systems audits and audits of operations carried out under points (a) and (b) of this paragraph;
 - (ii) issuing an opinion, on the basis of the controls and audits that have been carried out under its responsibility, as to whether the management and control system functions effectively, so as to provide a reasonable assurance that statements of expenditure presented to the Commission are correct and as a consequence reasonable assurance that the underlying transactions are legal and regular.

When a common system applies to several IPA cross-border programmes, the information referred to in point (i) may be grouped in a single report, and the opinion and declaration issued under point (ii) may cover all the cross-border programmes concerned;

 - (d) submitting to the Commission at the latest by 31 December of the fifth year following the last budgetary commitment a closure declaration assessing the validity of the application for payment of the final balance and the legality and regularity of the underlying transactions covered by the final statement of expenditure, which shall be supported by a final control report. This closure declaration shall be based on all the audit work carried out by or under the responsibility of the audit authority.
2. The audit authority shall ensure that the audit work takes account of internationally accepted audit standards.

3. Where the audits and controls referred to in paragraph 1 points (a) and (b) are carried out by a body other than the audit authority, the audit authority shall ensure that such bodies have the necessary functional independence.
4. If weaknesses in management or control systems or the level of irregular expenditure detected do not allow the provision of an unqualified opinion for the annual opinion referred to in paragraph 1 point (c) or in the closure declaration referred to in paragraph 1 point (d), the audit authority shall give the reasons and estimate the scale of the problem and its financial impact.

Article 106
Audit trail

For the purposes of the audits referred to in Article 105(1)(b), an audit trail shall be considered adequate where, for the cross-border programme concerned, it complies with the following criteria:

- (a) it permits the aggregate amounts certified to the Commission to be reconciled with the detailed accounting records and supporting documents held by the certifying authority, managing authority, intermediate bodies and lead beneficiaries as regards operations co-financed under the cross-border programme;
- (b) it permits verification of payment of the public contribution to the lead beneficiary and each final beneficiary;
- (c) it permits verification of application of the selection criteria established by the joint monitoring committee for the cross-border programme;
- (d) it contains, in respect of each operation, the technical specifications and financing plan, documents concerning the grant approval, documents relating to public procurement procedures, progress reports and reports on verifications and audits carried out.

Article 107
Audits of operations

1. The audits referred to in Article 105(1)(b) shall be carried out each twelve-month period from 1 July of the year following the adoption of the cross-border programme on a sample of operations selected by a method established or approved by the audit authority in agreement with the Commission.

The audits shall be carried out on the spot on the basis of documentation and records held by the final beneficiary.

The participating countries shall ensure the appropriate repartition of those audits over the implementation period.

2. The audits shall verify that the following conditions are fulfilled:

- (a) the operation meets the selection criteria for the cross-border programme and has been implemented in accordance with the approval decision and fulfils any applicable conditions concerning its functionality and use or the objectives to be attained;
 - (b) the expenditure declared corresponds to the accounting records and supporting documents held by the final beneficiary;
 - (c) the expenditure declared by the final beneficiary is in compliance with Community and national rules;
 - (d) the public contribution has been paid to the final beneficiary in accordance with Article 40(9).
3. Where problems detected appear to be systemic in nature and therefore entail a risk for other operations under the cross-border programme, the audit authority shall ensure that further examination is carried out, including additional audits where necessary, to establish the scale of such problems. The necessary preventive and corrective action shall be taken by the relevant authorities.
 4. No less than 5% of the total expenditure declared by lead beneficiaries and certified to the Commission in the final statement of expenditure shall be audited in accordance with paragraph 2 before the closure of a cross-border programme.

Article 108
Control system

1. In order to validate the expenditure, each participating country shall set up a control system making it possible to verify the delivery of the products and services co-financed, the soundness of the expenditure declared for operations or parts of operations implemented on its territory, and the compliance of such expenditure and of related operations, or parts of those operations, with Community, when relevant, and its national rules.

For this purpose each participating country shall designate the controllers responsible for verifying the legality and regularity of the expenditure declared by each final beneficiary participating in the operation. Participating countries may decide to designate a single controller for the whole programme area.

Where the verification of the delivery of the products and services co-financed can be carried out only in respect of the entire operation, such verification shall be performed by the controller of the participating country where the lead beneficiary is located or by the managing authority.

2. Each participating country shall ensure that the expenditure can be validated by the controllers within a period of three months from the date of its submission by the lead beneficiary to the controllers.

Sub-section 2 Evaluation and monitoring

Article 109
Evaluation

1. Evaluation shall aim to improve the quality, effectiveness and consistency of the assistance from the Community funds and the strategy and implementation of cross-border programmes while taking account of the objective of sustainable development and of the relevant Community legislation concerning environmental impact and strategic environmental assessment.
2. Participating countries shall jointly carry out an *ex ante* evaluation covering each cross-border programme.

Ex ante evaluations shall aim to optimise the allocation of budgetary resources under cross-border programmes and improve programming quality. They shall identify and appraise the disparities, gaps and potential for development, the goal to be achieved, the results expected, the quantified targets, the coherence with the relevant multi-annual indicative planning documents(s), the Community value-added, the lessons drawn from the previous programming and the quality of the procedures for implementation, monitoring, evaluation and financial management.

The *ex ante* evaluation shall be annexed to the cross-border programme.

3. During the programming period, participating countries shall carry out evaluations linked to the monitoring of the cross-border programme in particular where that monitoring reveals a significant departure from the goals initially set or where proposals are made for the revision of cross-border programme. The results shall be sent to the joint monitoring committee for the cross-border programme and to the Commission.

Where the results are conducive to a revision of the remainder of the programme as referred to in Article 93, they shall be discussed within the IPA Committee at the time of the submission of the revised cross-border programme.

4. Evaluations shall be carried out by experts or bodies, internal or external, functionally independent of the certifying and audit authorities referred to in Article 102. The results shall be published according to the applicable rules on access to documents.
5. Evaluation shall be financed from the budget for technical assistance referred to in Article 94(1)(f).

Article 110
Joint monitoring committee

1. The participating countries shall set up a joint monitoring committee for each cross-border programme within three months from the date of the notification to the participating countries of the decision approving the cross-border programme.

The joint monitoring committees shall meet at least twice a year, at the initiative of the participating countries or of the Commission.

In the event of a cross-border programme implemented according to the transitional arrangements referred to in Article 99, for the beneficiary countries where the assistance is implemented on a decentralised basis, the joint monitoring committee fulfils the role of the sectoral monitoring committee referred to in Article 59.

2. Each joint monitoring committee shall draw up its rules of procedure within the institutional, legal and financial framework of the participating countries and in compliance with a joint monitoring committee mandate set out by the Commission, in order to exercise its missions in accordance with the present Regulation. It shall adopt them in agreement with the managing authority and, in the case of a programme implemented according to the transitional arrangements referred to in Article 99, in agreement with the national IPA coordinator(s) of the participating beneficiary country(ies).

3. The joint monitoring committee shall be chaired by a representative of one of the participating countries or the managing authority.

In deciding its composition in accordance with Article 102(3), the participating countries shall take due account of the provisions of Article 87.

4. The Commission shall participate in the work of the joint monitoring committee in an advisory capacity. A representative of the European Investment Bank and the European Investment Fund may participate in an advisory capacity for those cross-border programmes to which the European Investment Bank or the European Investment Fund makes a contribution.

5. The joint monitoring committee shall satisfy itself as to the effectiveness and quality of the implementation of the cross-border programme, in accordance with the following provisions:

(a) it shall consider and approve the criteria for selecting the operations financed by the cross-border programme and approve any revision of those criteria in accordance with programming needs;

(b) it shall periodically review progress made towards achieving the specific targets of the cross-border programme on the basis of documents submitted by the managing authority and, in the case of a programmes implemented according to the transitional arrangements referred to in Article 99, by the operating structures in the participating beneficiary countries;

activity report(s) referred to in Article 29(2)(b) first indent, and of any relevant comments the Commission may make after examining those reports;

- (f) it shall be responsible for selecting operations but may delegate this function to a steering committee reporting to it;
- (g) it may propose any revision or examination of the cross-border programme likely to make possible the attainment of the objectives referred to in Article 86(2) or to improve its management, including its financial management;
- (h) it shall consider and approve any proposal to amend the content of the cross-border programme.

Information referred to in points (c) and (f) need not be included if there has been no significant modification since the previous report.

3. The Commission shall inform the participating countries of its opinion on the content of an annual report on implementation submitted by the managing authority within three months from the date of receipt. For the final report on a cross-border programme, the time limit shall be a maximum of five months from the date of receipt of the report. If the Commission does not respond within the time limit laid down, the report shall be deemed to be accepted.

Article 113
Annual examination of programmes

1. Every year, when the annual report on implementation referred to in Article 112 is submitted, the Commission and the managing authority shall examine the progress made in implementing the cross-border programme, the principal results achieved over the previous year, the financial implementation and other factors with a view to improving implementation.

Any aspects of the operation of the management and control system raised in the last annual control report, referred to in Article 105(1)(c)(i), may also be examined.

2. Without prejudice to the participating countries' responsibility for detecting and correcting irregularities and for recovering amounts unduly paid, the certifying authority shall ensure that any amount paid as a result of an irregularity is recovered from the lead beneficiary. The final beneficiaries shall repay the lead beneficiary the amounts unduly paid in accordance with the agreement existing between them. If the lead beneficiary does not succeed in securing repayment from a final beneficiary, the participating country on whose territory the relevant final beneficiary is located shall reimburse the certifying authority the amount unduly paid to that final beneficiary.

If the opinion contains reservations, the report shall indicate the seriousness of the shortcomings. The participating country concerned shall inform the Commission of the corrective measures to be taken and the timetable for their implementation, and subsequently provide confirmation of the implementation of the measures and the withdrawal of the corresponding reservations.
2. The report and the opinion referred to in paragraph 1 are established by the audit authority or by a public or private body functionally independent of the managing and certifying authorities which shall carry out its work taking account of internationally accepted audit standards.
3. Where the management and control system concerned is essentially the same as that in place for assistance approved under Regulation (EC) No 1083/2006, account may be taken of the results of audits carried out by national and Community auditors in relation to that system for the purposes of establishing the report and opinion referred to in paragraph 1.
4. The report referred to in paragraph 1 shall be deemed to be accepted, and the pre-financing payment shall be made, in the following circumstances:

In addition to the information listed in Article 115 (2) and (3), the description of the management and control system shall include the arrangements agreed between participating countries to allow the managing authority, the certifying authority and the audit authority to exercise their duties arising from this Regulation and to ensure compliance by the participating countries with their obligations as regards the recovery of undue payments as set out in Article 114(2).

Those arrangements, together with the provisions concerning the rules and procedures for public procurements as referred to in Article 121, shall be included in a written agreement concluded between the participating countries and annexed to the description of the management and control systems referred to in Article 115.

Article 119

Responsibilities of the Commission

1. The Commission shall satisfy itself, in accordance with the procedure laid down in Article 116, that the participating countries have set up management and control systems that comply with Articles 101 and 105 and, on the basis of the annual control reports and the annual opinion of the audit authority as referred to in Article 105(1)(c) and its own audits, that the systems function effectively during the period of implementation of the cross-border programmes.
2. Without prejudice to audits carried out by participating countries, Commission officials or authorised Commission representatives may carry out on the spot audits to verify the effective functioning of the management and control systems, which may include audits on operations included in cross-border programmes, with a minimum of ten working days' notice, except in urgent cases. Officials or authorised representatives of the participating countries may take part in such audits.

Commission officials or authorised Commission representatives, duly empowered to carry out on-the-spot audits, shall have access to the books and all other documents, including documents and metadata drawn up or received and recorded on an electronic medium, relating to expenditure financed by Community funds.

Those powers of audit shall not affect the application of national provisions which reserve certain acts for agents specifically designated by national legislation.

3. The Commission may require a participating country to carry out an on-the-spot audit to verify the effective functioning of the systems or the correctness of one or more transactions. Commission officials or authorised Commission representatives may take part in such audits.

Article 120

Co-operation with the audit authorities

The Commission and the audit authorities of cross-border programmes shall co-operate to co-ordinate their respective audit plans and audit methods and shall immediately exchange the

results of audits carried out on management and control systems in order to make the best possible use of resources and to avoid unjustified duplication of work.

The Commission and the audit authorities shall meet on a regular basis, and at least once a year unless otherwise agreed between them, in order to examine together the annual control report and opinion presented under Article 105 and to exchange views on other issues relating to the improvement of the management and control of the cross-border programmes.

Article 121
Procurement

1. For the award of service, supply and work contracts, the procurement procedures shall follow the provisions of Chapter 3 of Part 2, Title IV of Regulation (EC, Euratom) No 1605/2002 and Chapter 3 of Part 2, Title III of Regulation (EC, Euratom) No 2342/2002, as well as Commission Decision C (2006) 117 of 24 January 2006 on the rules and procedures applicable to service, supply and work contracts financed by the general budget of the European Communities for the purposes of co-operation with third countries.

Those provisions shall apply in the whole area of the cross-border programme, both on the Member States' and on the beneficiary countries' territory.

2. The provisions under paragraph 1 shall be included in the written agreement concluded between the participating countries as referred to in Article 118.
3. In the case of cross-border programmes implemented under transitional arrangements referred to in Article 99, paragraph 1 shall not apply to the part of programme implemented in the Member States' territory unless otherwise decided by the participating Member States.

3. At the latest by 30 April each year, the certifying authority shall send the Commission a provisional forecast of its likely payment applications for the current financial year and the subsequent financial year.
4. All exchanges concerning financial transactions between the Commission and the authorities and bodies designated by the participating countries shall be made by electronic means. In cases of "*force majeure*", and in particular of malfunction of the

common computerised system or a lack of a lasting connection, the certifying authority may forward the statement of expenditure and the payment application in hard copy.

Article 123

Common rules for calculating interim payments and payments of the final balance

Interim payments and payments of the final balance shall be calculated by applying the co-financing rate for each priority axis to the eligible expenditure mentioned under that priority axis in each statement of expenditure certified by the certifying authority.

However, the Community contribution through the interim payments and payments of the final balance shall not be greater than the public contribution and the maximum amount of assistance from the Community funds for each priority axis as laid down in the decision of the Commission approving the cross-border programme.

Article 124

Statement of expenditure

1. All statements of expenditure shall include, for each priority axis, the total amount of eligible expenditure, in accordance with Article 89 paid by final beneficiaries in implementing the operations and the corresponding public expenditure paid or due to be paid to the final beneficiaries according to the conditions governing the public expenditure. Expenditure paid by final beneficiaries shall be justified by receipted invoices or accounting documents of equivalent probative value.
2. Where the contribution from the Community funds is calculated in reference to Article 90(2), any information on expenditure other than public expenditure does not affect the amount due as calculated on the basis of the payment request.

Article 125

Accumulation of pre-financing and of interim payments

The provisions laid down in Article 40(5) apply *mutatis mutandis*.

Article 126

Wholeness of payment to beneficiaries

The provisions laid down in Article 40(9) apply *mutatis mutandis*.

Article 127

Use of the euro

1. Amounts set out in the submitted cross-border programmes of the participating countries, certified statements of expenditure, payment application and expenditure mentioned in the annual and final report on implementation shall be denominated in euro.

2. Commission decisions on cross-border programmes, Commission commitments and payments, shall be denominated and carried out in euro.
3. Lead beneficiaries for projects involving final beneficiaries in participating countries which have not adopted the euro as their currency on the date of the payment application shall convert into euro the amounts of expenditure incurred in national currency.

That amount shall be converted into euro using the monthly accounting exchange rate of the Commission in the month during which the payment application is submitted to the managing authority by the lead beneficiary. This rate shall be published electronically by the Commission each month.

4. When the euro becomes the currency of a participating country, the conversion procedure set out in paragraph 3 shall continue to apply to all expenditure recorded in the accounts by the certifying authority before the date of entry into force of the fixed conversion rate between the national currency and the euro.

Article 128 *Pre-financing*

1. Following the Commission decision approving the cross-border programme, and upon acceptance of the report referred to in Article 116, a single pre-financing amount shall be paid by the Commission to the body designated by the participating countries.

The pre-financing amount shall amount to 25% of the first three budgetary commitments to the programme.

The pre-financing amount may be paid in two instalments, where necessary with regard to the availability of budgetary commitment.

2. The total amount paid as pre-financing shall be reimbursed to the Commission by the body designated by the participating countries if no payment application under the cross-border programme is sent within twenty-four months of the date on which the Commission pays the first instalment of the pre-financing amount.

Article 129 *Interest*

The provisions laid down in Article 36 apply *mutatis mutandis*.

Article 130 *Clearance*

The amount paid as pre-financing shall be totally cleared from the Commission accounts when the cross-border programme is closed in accordance with Article 133.

Article 131
Acceptability of applications for interim payments

1. Each interim payment made by the Commission shall be subject to the following conditions being met:
 - (a) the Commission must have been sent a payment application and a statement of expenditure in accordance with Article 124;
 - (b) no more than the maximum amount of assistance from the Community funds as laid down in the decision of the Commission approving the cross-border programme has been paid by the Commission during the whole period for each priority axis;
 - (c) the managing authority must have sent the Commission the most recent annual implementation report in accordance with Article 112;
 - (d) the absence of a reasoned opinion by the Commission in respect of an infringement under Article 226 of the Treaty, as regards the operation(s) for which the expenditure is declared in the payment application in question.
2. If one or more of the conditions referred to in paragraph 1 are not met, the participating countries and the certifying authority shall be informed by the Commission within a deadline of one month so that the necessary steps can be taken to remedy the situation.

Article 132
Date of presentation of applications for interim payment and payment delays

1. The certifying authority shall send requests for interim payments for each cross-border programme to the Commission, as far as possible, on three separate occasions a year. For a payment to be made by the Commission in the current year, the latest date on which a payment application shall be submitted is 31 October.
2. Subject to available funding, and the absence of a suspension of payments in accordance with Article 136, the Commission shall make the interim payment no later than two months after the date on which a payment application meeting the above conditions referred to in Article 131 is registered with the Commission.

Article 133
Conditions for the payment of the final balance

1. The Commission shall pay the final balance provided that:
 - (a) the certifying authority has sent a payment application comprising the following documents by 31 March of the fifth year following the last budgetary commitment:

- (ii) the final implementation report for the cross-border programme, including the information set out in Article 112,
 - (iii) a closure declaration referred to in Article 105(1)(d), and
 - (b) there is no reasoned opinion by the Commission in respect of an infringement under Article 226 of the Treaty, as regards the operation(s) for which the expenditure is declared in the payment application in question.
2. Failure to send any of the documents referred to in paragraph 1 to the Commission shall automatically result in the de-commitment of the final balance, in accordance with Article 137.
3. The Commission shall inform the participating countries of its opinion on the content of the closure declaration within five months of the date of its receipt.
- The closure declaration shall be deemed to be accepted in the absence of observations by the Commission within a deadline of five months.
4. Subject to available funding, the Commission shall pay the final balance within forty-five days from the later of the following dates:
- (a) the date on which it accepts the final report in accordance with Article 112, and
 - (b) the date on which it accepts the closure declaration.
5. Without prejudice to paragraph 6, the balance of the budgetary commitment shall be de-committed twelve months following the payment of the final balance. The cross-border programme is considered closed as soon as one of the following events occurs:
- (a) the payment of the final balance determined by the Commission on the basis of the documents referred to in paragraph 1;
 - (b) the sending of a debit note for sums unduly paid by the Commission to the participating countries in respect of the cross-border programme;
 - (c) the de-commitment of the final balance of the budgetary commitment.
- The Commission shall inform the participating countries about the date of the closure of the cross-border programme within a deadline of two months.
6. Notwithstanding the results of any audits performed by the Commission or the European Court of Auditors, the final balance paid by the Commission for the cross-border programme can be amended within nine months of the date on which it is paid or, where there is a negative balance to be reimbursed by the participating countries, within nine months of the date on which the debit note is issued. Such amendment of the balance shall not affect the date of the closure of the cross-border programme as set out in paragraph 5.

Article 134
Availability of documents

1. Without prejudice to the rules governing State aid under Article 87 of the Treaty, the managing authority shall ensure that all the supporting documents regarding expenditure and audits on the cross-border programme concerned are kept available for the Commission and the Court of Auditors for a period of three years following the closure of a cross-border programme as defined in Article 133(5).
