## CHAPTER 14: TRANSPORT POLICY

---

### **CURRENT SITUATION IN THE ACCESSION NEGOTIATIONS<sup>23</sup>:**

Screening Report for Chapter 14 on Transport Policy has not been officially communicated to Turkey.

According to the unofficial information, two opening benchmarks are envisaged:

1. Turkey should provide a clear strategy for the progressive alignment on the acquis in the railway sector. The strategy should include detailed plans for the separation of functions regarding infrastructure management and provision of services with target dates as well as institutional capacity-building measures.
2. Turkey should engage in a process towards the recognition of “Community Designation” and should provide a clear strategy for the progressive alignment with the acquis on the Single European Sky. The strategy should address an acceptable technical solution to ensure the necessary communication in order to guarantee the appropriate level of air safety in the South Eastern Mediterranean region.

## CHAPTER 24: JUSTICE, FREEDOM AND SECURITY

### CURRENT SITUATION IN THE ACCESSION NEGOTIATIONS<sup>38</sup>:

Screening Report for Chapter 24 on Justice, Freedom and Security has not been officially communicated to Turkey.

According to the unofficial information, four opening benchmarks are envisaged.

1. In the context of the Action Plan for the alignment with the acquis on migration and asylum, Turkey should adopt a detailed roadmap for legislative alignment and institutional enhancement (including recruitment and training of specialised staff) to upgrade considerably the infrastructure required to accommodate asylum seekers, refugees and irregular migrants waiting for their return. This roadmap should clearly include the priorities covering the short, medium and long term and provide a realistic plan (with budgetary calculations). This roadmap should reflect a clear priority setting covering the short, medium and long term. In the roadmap, Turkey should indicate how and when it intends to fully implement the Geneva Convention and its Protocols, including lifting the "geographic limitation" currently in force.
2. Turkey should complement its Integrated Border Management Action Plan with a roadmap containing concrete actions, targets, realistic deadlines, responsible authorities and an estimated budget for each of the actions requiring important investments. The roadmap should cover issues related to enhancing inter-agency cooperation, legislative alignment, institution building - including as a final aim to have a professional body in charge of the control and surveillance of Turkey's borders - and an appropriate human resources policy.
3. Turkey should pursue readmission negotiations with the EU Commission at a steady pace in view of concluding them.
4. Turkey should adopt a multi-annual and multi-disciplinary strategy to fight organised crime, in line with the EU strategic concept on tackling organised crime. The strategy should be accompanied by an action plan with targets, clearly defined guaranteed results, responsible institutions, realistic deadlines and budget estimation, where major investments are required. The strategy should cover the various typologies of cross border crime such as trafficking in human beings, drugs and counterfeited goods.

<sup>38</sup> Chapter 24 on Justice, Freedom and Security cannot be opened to negotiations due to political blockage.
