INTRODUCTION

This Flash Eurobarometer, "Public opinion in the EU regions" (No 356), was conducted at the request of the Directorate-General for Communication in the 27 EU Member States.

The survey was designed to explore views of Europeans at regional level on the following topics:

- The current quality of life and economic situation
- The expectations regarding quality of life and the economy
- Main concerns facing regions
- Perception of the European Union, trust in the EU and representatives best placed to explain the EU

This survey was carried out by the TNS Political & Social network in the 27 Member States of the European Union between 20 August and 13 September 2012. Some 50,746 respondents from different social and demographic groups were interviewed via telephone (landline and mobile phone) in their mother tongue on behalf of the European Commission, Directorate-General for Communication. The methodology used is that of Eurobarometer surveys as carried out by the Directorate-General for Communication ("Research and Speechwriting" Unit)¹. A technical note on the manner in which interviews were conducted by the Institutes within the TNS Political & Social network is appended as an annex to this report. Also included are the interview methods and confidence intervals².

¹ http://ec.europa.eu/public_opinion/index_en.htm

² The results tables are included in the annex. It should be noted that the total of the percentages in the tables of this report may exceed 100% when the respondent has the possibility of giving several answers to the question.

REGIONS INCLUDED IN THE SURVEY

Since this survey was a pilot study in many respects and was subject to budgetary constraints, it was decided to conduct it using a hybrid combination of NUTS-1 and NUTS-2 regions. In total 170 EU regions were considered.

Country	NUTS-1	NUTS-2	NUTS to consider for survey
BE	3	11	NUTS-1 (3)
BG	2	6	NUTS-1 (2)
CZ	1	8	NUTS-1 (1)
DK	1	5	<i>NUTS-2 (5)</i>
DE	16	38	NUTS-1 (16)
EE	1	1	NUTS-1 (1)
IE	1	2	NUTS-1 (1)

MAIN FINDINGS

Economic situation: current vs. expectations:

- In 97 of 170 EU regions, less than half of respondents say that the current economic situation is good.
- Most European regions fall into one of two categories: those in which the economic situation is judged to be good and which are primarily optimistic, and those where the situations is “bad” and respondents are mainly pessimistic.

Quality of life: current vs. expectations

- A majority of people think that their quality of life is good in all but 33 EU regions.
- An absolute majority of people in 27 EU regions think that their quality of life is going to get worse.

Main concerns facing regions across the EU

- Unemployment is seen as the most important problem in the EU as a whole; followed by the economic situation and the healthcare system.
- The environment is the item least often identified as one of the two most pressing problems

Perceptions of the European Union

- Regional and national representatives are the best placed to explain EU policy to citizens
- A majority of respondents in 62 of 170 EU regions say they tend to trust the EU

1. ECONOMIC SITUATION: CURRENT VS. EXPECTATIONS

-- In 97 of 170 EU regions, less than half of respondents say that the current economic situation is good –

All European respondents were asked how they would judge the current economic situation in their region.

The economic situation is judged as 'bad' in the majority of European regions. Indeed, in more than half of the regions (97 of 170), less than 50% of respondents say the economic situation is **good** in their region.

However, the impact of the crisis is experienced very differently from one region to another. The results range from 96% of respondents who think that the situation is **good** (Vorarlberg, Austria) to just 4% (Continente, Portugal).

At one extreme, the situation is considered **good** by more than 80% of respondents in 15 of the 170 regions, representing less than 10% of them. The regions belonging to this category are mostly situated in western and northern Member States, namely in Austria, Finland, Germany, Luxembourg, Sweden and in some parts of Italy and the Netherlands. In one Austrian region in particular, more than 95% of the respondents say that the economic situation is good in their region (*Table 1*).

Just below this first category, a majority of respondents (between 50% and 79%) assess the economic situation as good in around one-third of the regions (58 of 170). Most of the regions in this category are in the west or north of Europe, but they also include seven of the 16 Polish regions (*Table 2*).

At the other extreme, the situation is judged as **bad** by more than 80% of respondents in 21 of the 170 regions, situated in southern European countries (Italy, Spain, Portugal, Greece, Cyprus), in the east (Slovenia, Slovakia, Hungary) and in Ireland (*Table 3*).

Just above these 21 regions, but among those where less than half the respondents say the economic situation is **good**, we find a substantial number of French, Italian, Spanish, Polish, Greek, and UK regions, as well as the Baltic states, Malta, and the Czech Republic.

Interestingly, these regional results expose some significant disparities within single countries. For example, while three of the 16 regions in Germany are at the top of the table, led by the Baden Württemberg region with 89% of "good" responses, four regions are towards the bottom of the classification, with only 24% of positive judgements in Mecklenburg-Vorpommern. In Italy too, the gap between the Provincia autonoma di Bolzano/Bozen (88%) and Calabria (7%) is very wide.

These results are distributed as follows:

Economic situation "Good" (80%-96%)			
Country results	Number of regions	Regions	
Austria	6 out of 9	Vorarlberg	96%
		Oberösterreich	91%
		Salzburg	85%

Figure 1 - Situation of the economy

- Most European regions fall into one of two categories: those in which the economic situation is judged to be good and which are primarily optimistic, and those where the situations is "bad" and respondents are mainly pessimistic.–

Respondents were then asked whether they think the economic situation in their region will get better, get worse or stay the same over the next 12 months.

In each region a limited proportion of respondents think that the economic situation **will improve** in the next 12 months, with results ranging from 3% (Reunion, France) to 23% (Latvia).

In 71 regions, over 10% say the economic situation is going to improve in their region over the 12 next months.

Table 5 – Regions where over 10% of respondents consider economic situation "Better"

The proportion of respondents who think that the situation **will remain the same** varies widely from one region to another (from 13% to 68%).

Finally, there are also striking differences when we consider pessimistic opinions ("the economic situation **will get worse**"). The proportion of respondents who think so ranges from 13% (Latvia) to 82% (Attiki, Greece).

The regions where the majority of respondents expect the economic situation to get worse are mostly situated in southern and eastern Member States. Nevertheless in some regions of France and the Netherlands the proportion of respondents who expect the situation to worsen is also remarkably high.

There are only 34 regions in which an absolute majority of respondents expect the economic situation to worsen over the next 12 months.

Table 7 – Regions where between 43% and 50% of respondents consider the economic situation "Worse"

In figure 2, the EU regions covered by the survey were classified in the following four categories:

1) Regions where a majority of respondents say that the **current situation of the economy in the region is "good" and are optimistic** about the future outlook for the economy of the region ("better" + "same" > "worse").

72 regions out of 170 in Europe felt that their respective economies were good and were optimistic for the future.

2) Regions where a majority of respondents say that the **situation of the economy in the region is "good" but feel pessimistic** about the future outlook for the economy of the region ("worse" > "better" + "same")

Only seven regions in Europe considered their economy to be 'good' but remained pessimistic about the future: País Vasco, La Rioja and Ciudad Autónoma de Ceuta in Spain; Valle d'Aosta/Vallée d'Aoste in Italy; and Friesland, Drenthe and Zeeland in the Netherlands.

3) Regions where the majority of the population say that the **situation of the economy in the region is "bad" but are optimistic** about the future outlook of the economy of the region ("better" > "worse" + "same")

Not one region fell into this third category, in which the majority of respondents said the economy in their region is 'bad' but expected it to improve.

4) Regions where the majority of the population say that the **situation of the economy in the region is "bad" and are pessimistic** about the future outlook of the economy of the region ("same" + "worse" > "better")

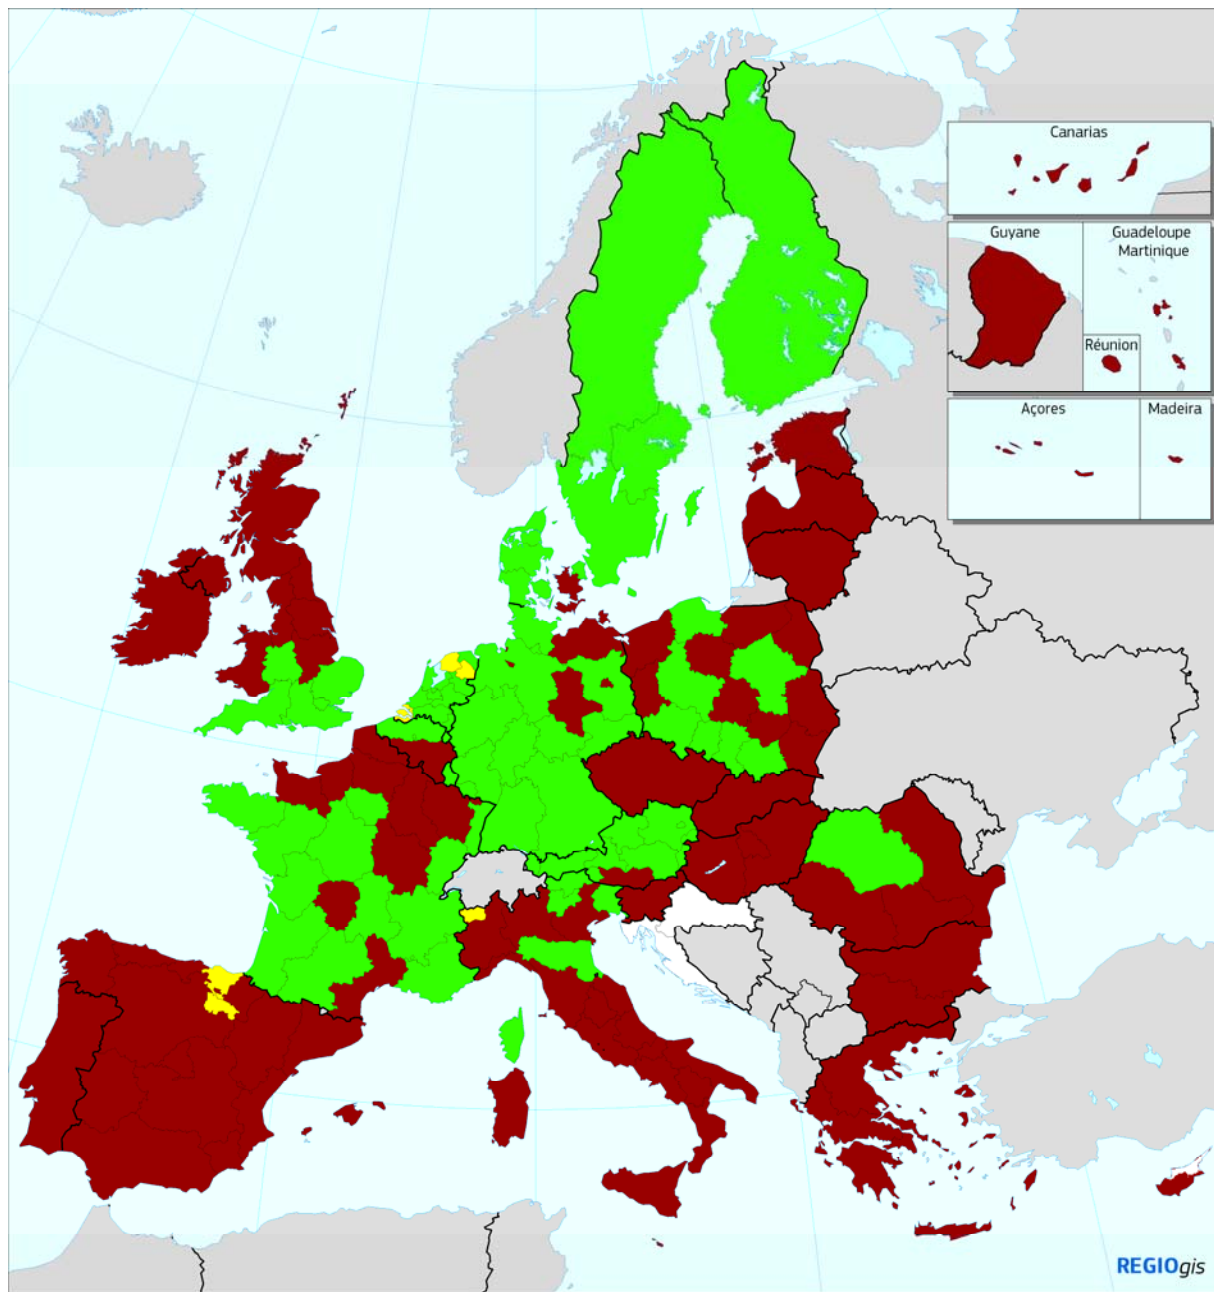

The majority of the regions (91 of 170) fell into this category.

The table below identifies the 72 regions where the majority of respondents say that the current and future prospects for the economy in their region are good.

2. QUALITY OF LIFE: CURRENT VS. EXPECTATIONS

-- A majority of people think that their quality of life is good in all but 33 EU regions –

All respondents were then asked how they would judge the quality of life in their region.

The quality of life is judged to be **good** in most European regions. In 137 of the 170 regions, more than half the respondents assessed it positively. At least three-quarters of the population do so in more than half of the regions (90 of 170) (*Table 10 and Table 11*).

In 15 regions, the quality of life is considered particularly good, more than 95% of respondents giving a positive judgment. These regions are mainly in Austria, Finland and the Netherlands (*Table 10*).

Nevertheless, there are wide differences between regions, with results ranging from 99% (Vorarlberg, Austria; and Drenthe, the Netherlands) to 19% (Alfold es Eszak, Hungary).

In 33 regions, only a minority of respondents believe that the quality of life is good. These regions are in southern and eastern countries, and in the Baltic states (*Table 13*).

Table 12 – Regions where less than 50% consider the quality of life “good”

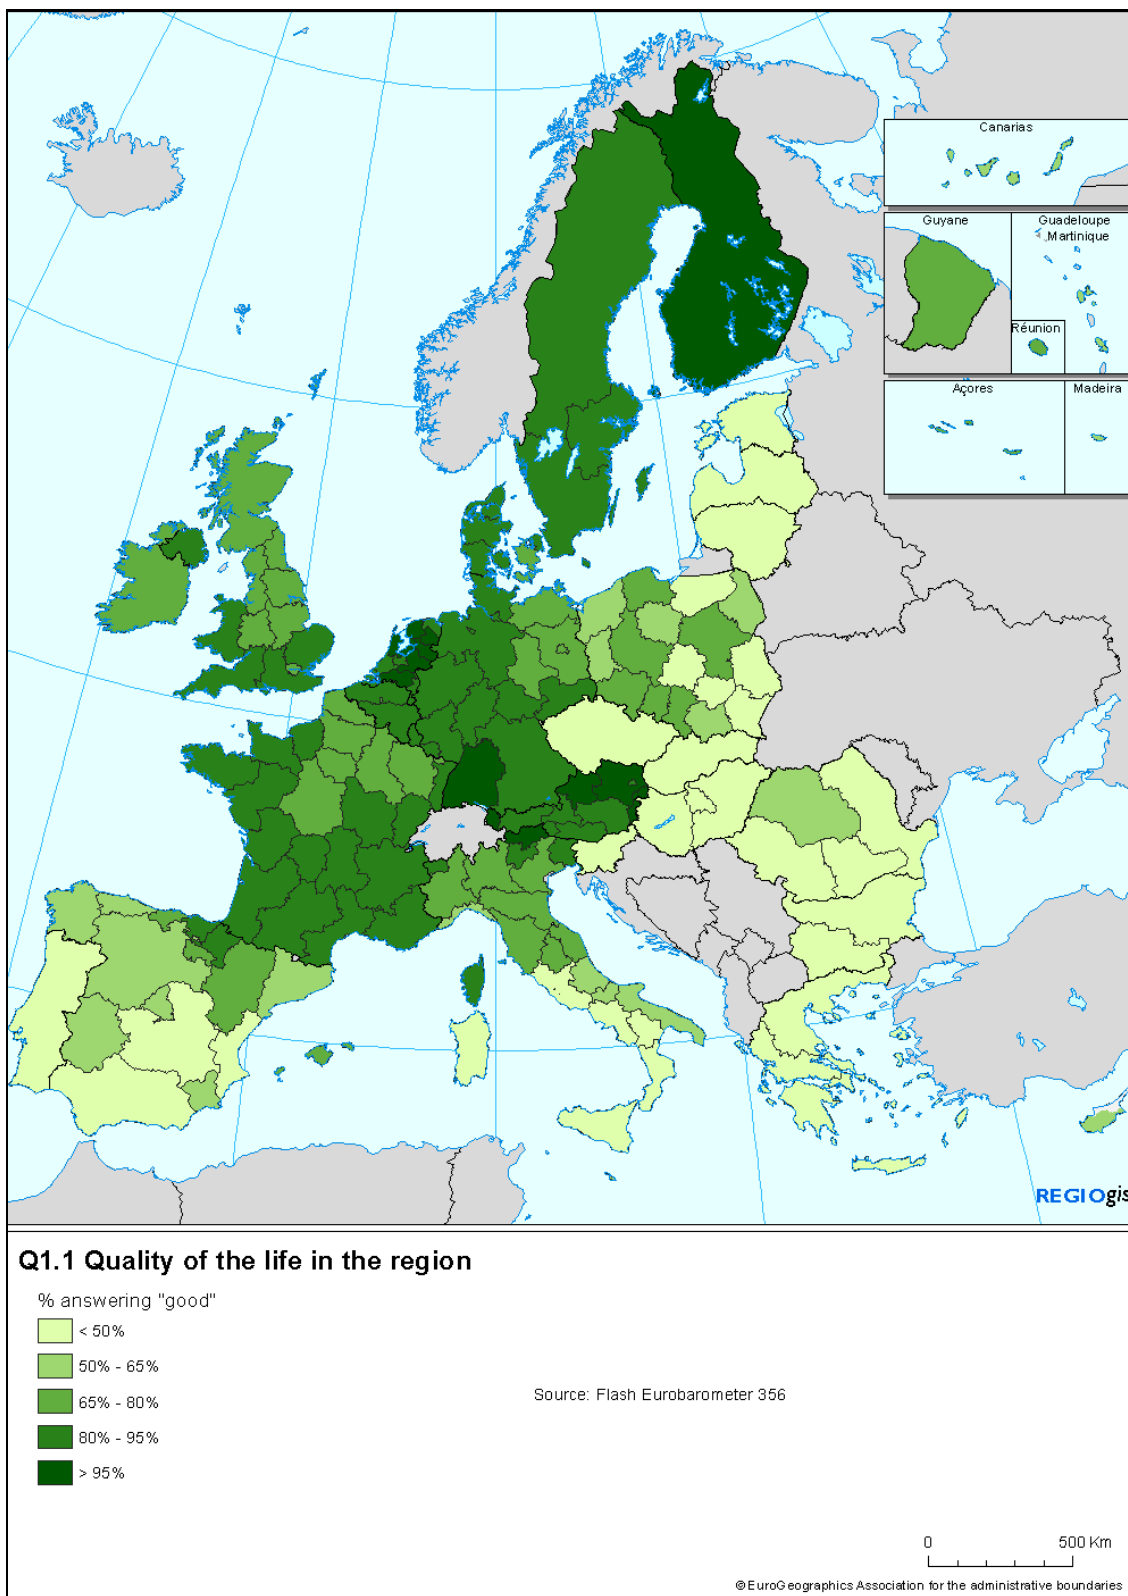

Figure 3 – Situation of the quality of life”

–An absolute majority of people in 27 EU regions think that their quality of life is going to get worse –

Respondents were then asked whether they think the quality of life in their region will get better, get worse or remain the same over the next 12 months.

Since in most regions people judged their quality of life to be good, it is unsurprising to find that a limited proportion of respondents think that it **will improve** in the next 12 months. These results range from 3% (Baden-Württemberg, Bremen, Nordrhein-Westfalen and Thüringen in Germany and Alsace in France) to 23% (Latvia).

In more than half of the regions (87 of 170), an absolute majority of respondents say that the quality of life will **stay the same**.

The proportion who expect to see **a deterioration** in the quality of life varies greatly from one region to another, with results ranging from 76% (Voreia Ellada, Greece) to 10% (Ostra Sverige, Sweden).

In 82 regions, over 35% of respondents expect the quality of life to worsen. In general, the regions which are most pessimistic about the quality of life are in southern and central countries.

In the most pessimistic 27 regions, an absolute majority of respondents say the quality of life will get worse: in Cyprus, all the Greek regions, 16 of the 19 Spanish regions, all Portuguese regions, one of the 16 Polish regions, Slovenia and Slovakia.

NB: In regions marked with a * an absolute majority expect the quality of life to be worse.

Table 13 – Regions where more than 35% expect the quality of life to get “worse”

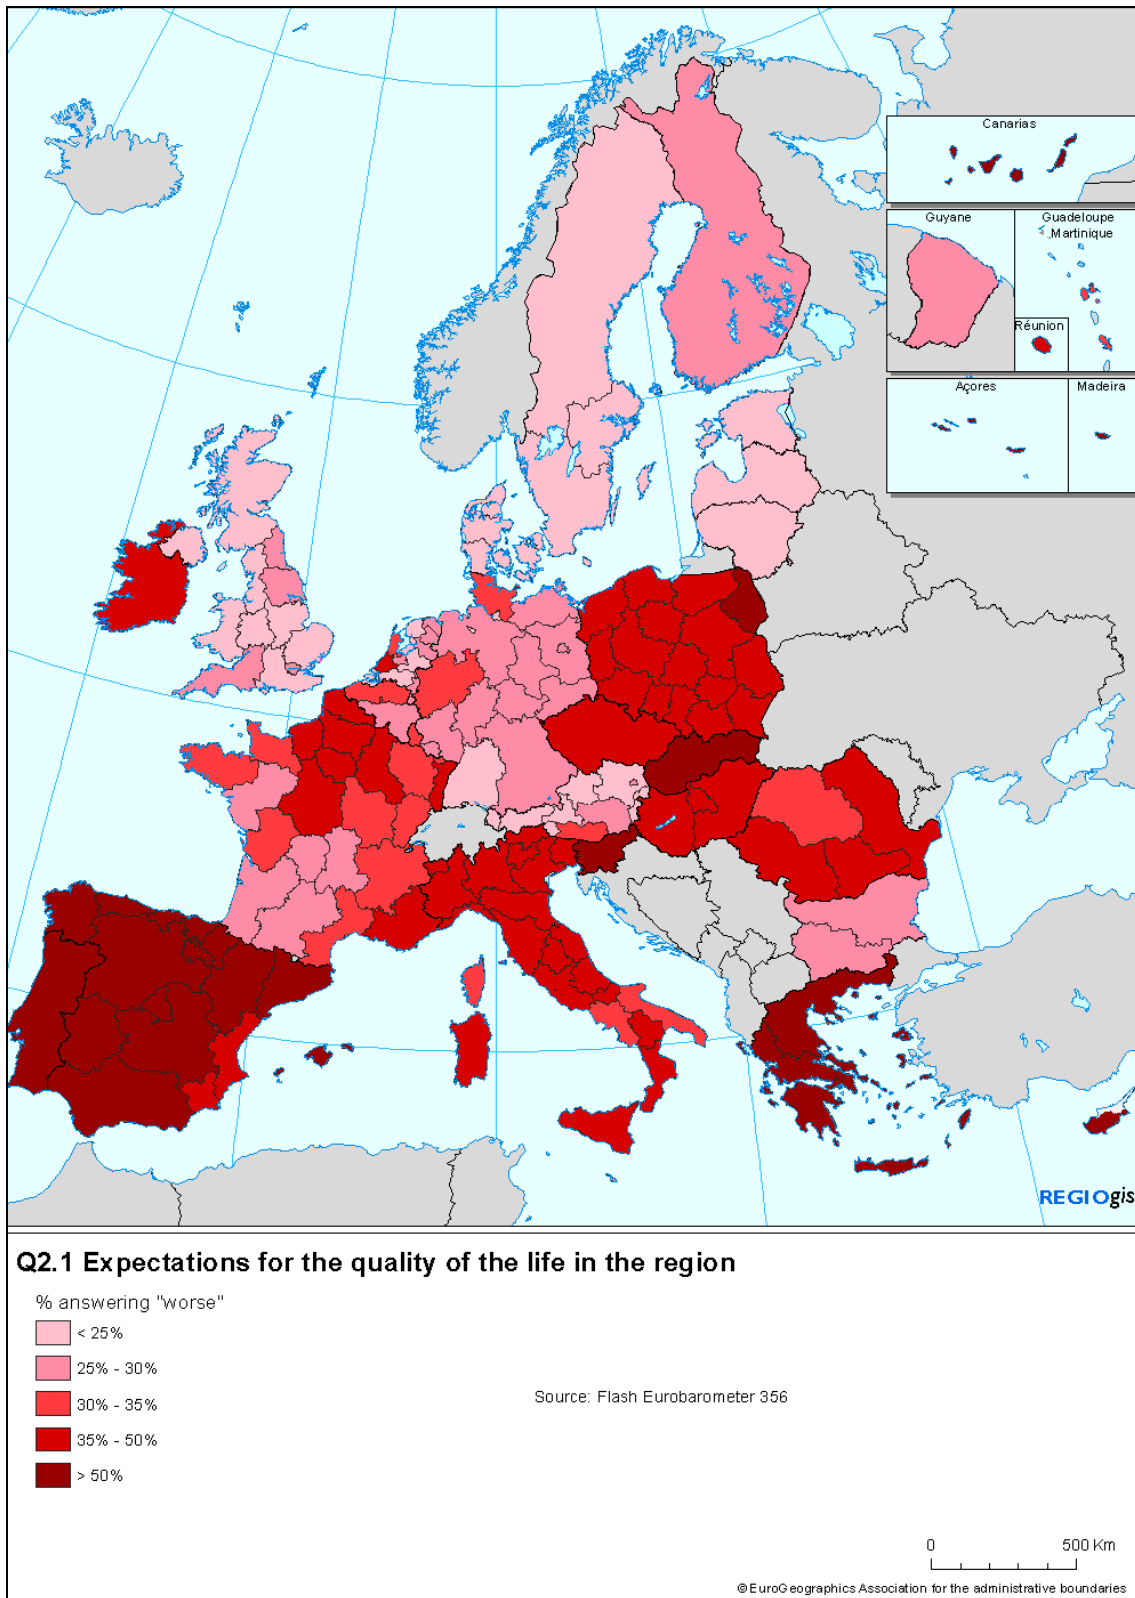

Figure 4 – Expectations for the quality of life

3. MAIN CONCERNS FACING REGIONS ACROSS THE EU

EU respondents were then asked to choose the two most important issues currently faced by their region from the following list:

- Unemployment
- Economic situation
- Healthcare system
- People and/or business going away from the region
- The education system
- Crime
- Immigration
- The environment

- Unemployment is seen as the most important problem in the EU as a whole -

Unemployment is the top issue in 148 of the 170 regions. In 115 of these regions over the half of the population see unemployment as the most important issue faced by their region.

In 16 regions, at least four in five respondents identify employment as one of the two main problems facing their region. These regions are in Spain, Poland, France and Italy.

Nevertheless, there are distinct differences between regions, with results ranging from 91% (Warmińsko-Mazurskie, Poland) to 16% (Bayern, Germany).

Unemployment (80% or more)			
Country results	Number of regions	Regions	
Spain	7 out of 19	País Vasco	85%
		Extremadura	85%
		Principado de Asturias	81%
		Andalucía	81%
		Galicia	80%
		Aragón	80%
		Canarias	80%
France	3 out of 26	Réunion	87%
		Nord - Pas-de-Calais	80%

		Zachodniopomorskie	83%
		Lubelskie	80%
		Podkarpackie	80%

Table 14 – Regions where 80% or more think unemployment is the main issue”

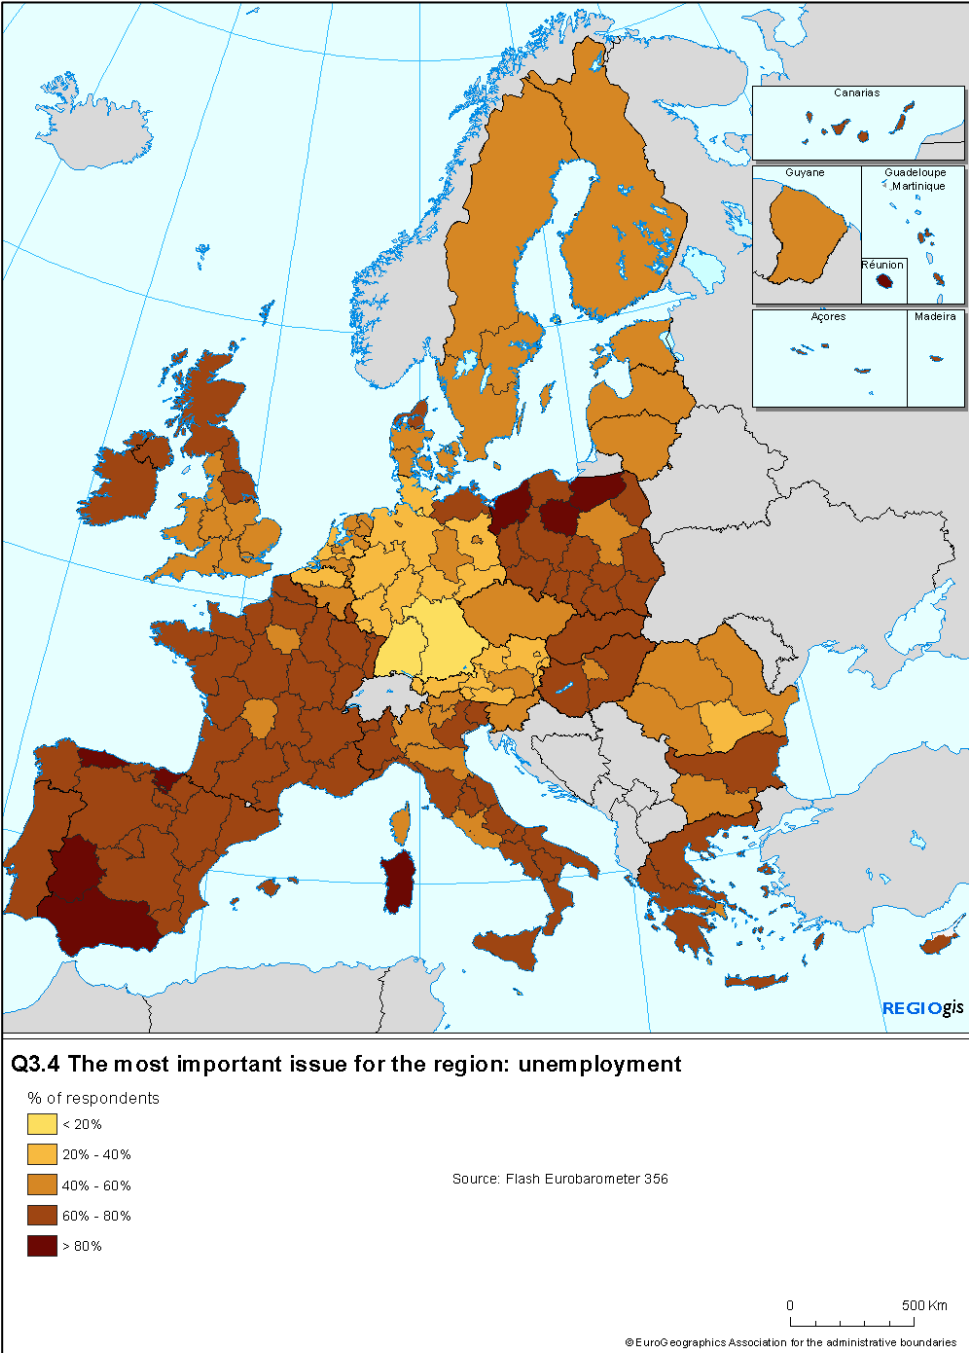

Figure 5 – Expectations for the quality of life

Unsurprisingly, **the economic situation** is the second topic of concern throughout the European regions, regional results ranging from 67% (Slovenia) to 13% (Norra Sverige, Sweden; and Ciudad Autónoma de Melilla, Spain).

In 97 regions, more than 30% of respondents say that the economic situation is one of the two most important issues. In 27 of these, it is a matter of concern to more than 40% of respondents: this category includes all the Greek regions, regions in Spain, the Netherlands, France and Portugal, and also Cyprus, the Czech Republic, Slovenia and Slovakia.

Economic situation (over 40%)			
Country results	Number of regions	Regions	
Cyprus	1 out of 1	Kýpros	62%
Czech Republic	1 out of 1	Česká republika	46%
Spain	7 out of 19	Pais Vasco	47%

Romania	1 out of 4	Macroregiunea Doi	41%

Table 15 – Regions where more than 40% think the economic situation is the main issue

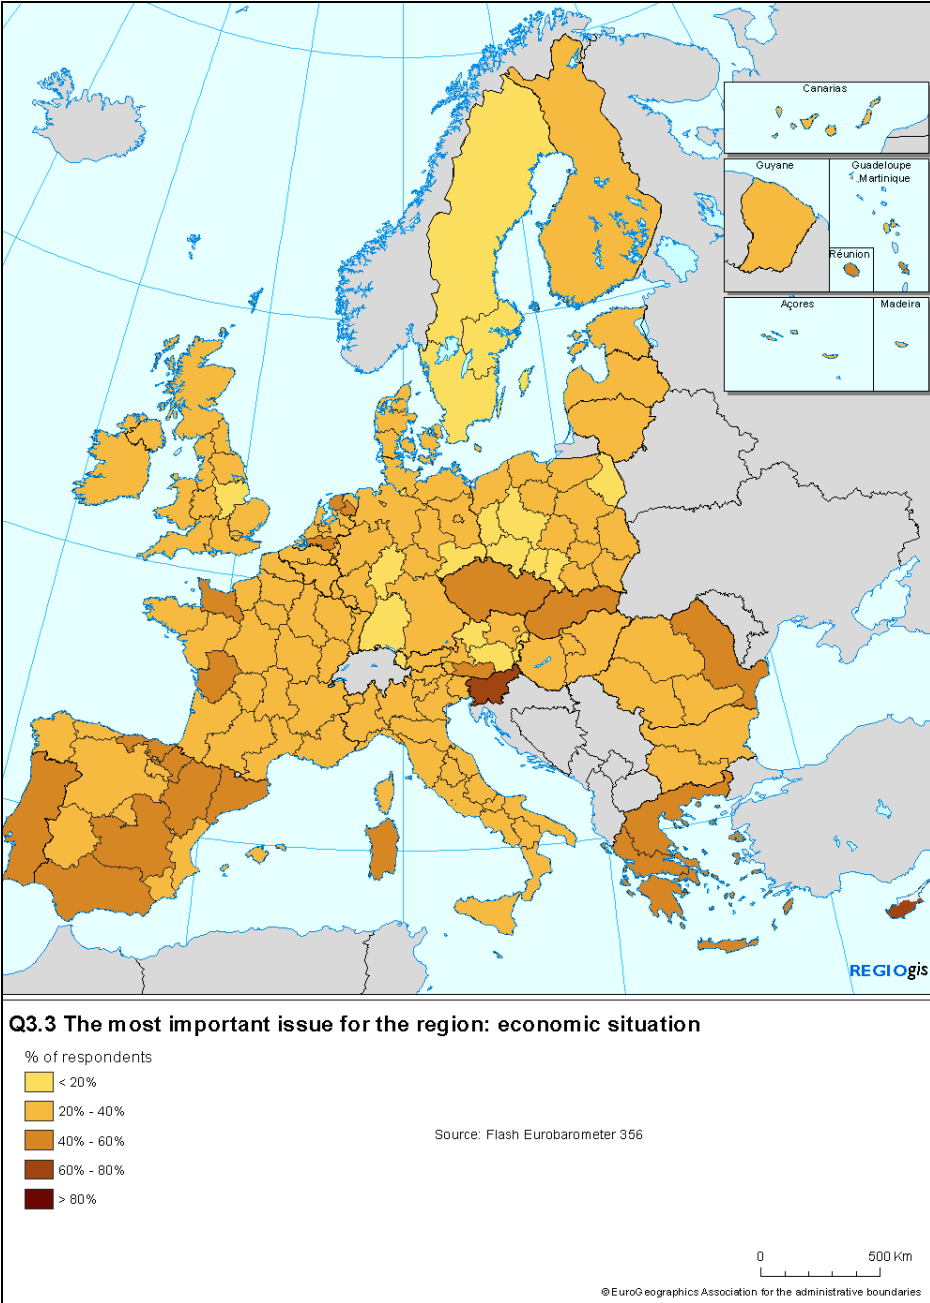

Figure 6 – Most important issues for the region: economic situation

While unemployment and the economic situation dominate the concerns of Europeans, other subjects, such as **healthcare**, are also important.

In fact, in more than half of the regions at least 20% of respondents chose healthcare among the two most important topics, and over 40% did so in 20 regions which cover the whole of Finland and Sweden, Ireland, almost all of Romania, and more than half of the regions of Poland.

Healthcare (over 40%)			
Country results	Number of regions	Regions	
Finland	2 out of 2	Åland	50%
		Manner-Suomi	47%
Ireland	1 out of 1	Ireland	45%

		Södra Sverige	52%
		Östra Sverige	43%

Table 16 – Regions where more than 40% think healthcare is the main issue

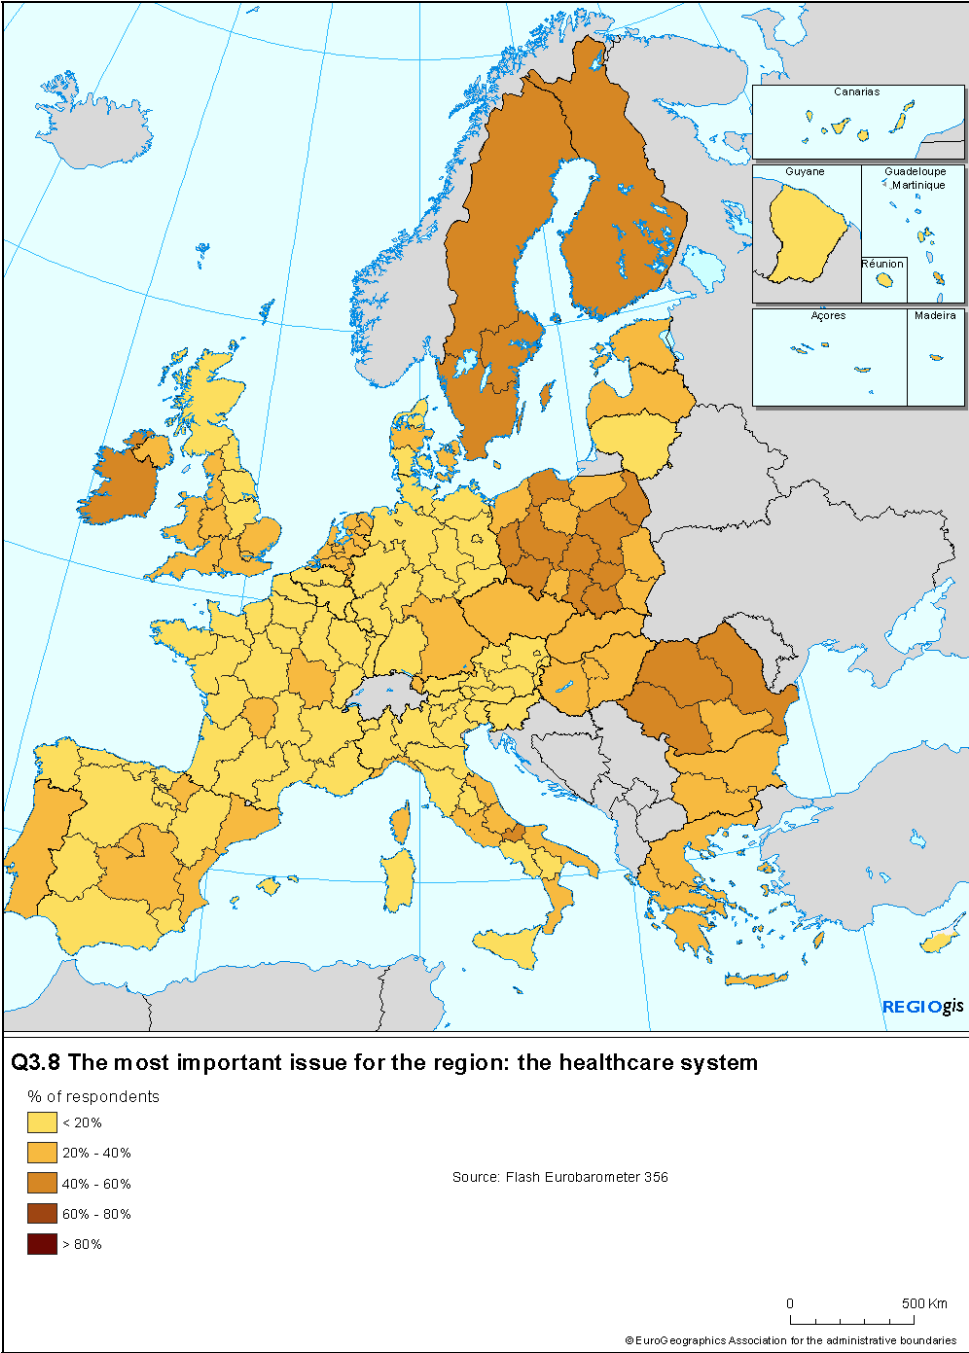

Figure 7 – Most important issues for the region: healthcare system

The fourth concern of Europeans is another economic issue, **“people and/or business going away from the region”**.

Among individual regions, the results range from 48% (Thüringen, Germany) to 1% Reunion, France).

In 33 regions, more than 25% of respondents consider that “people and/or business going away from the region” is an important issue.

Interestingly, this item causes sometimes substantial differences within a single country, as happens in Germany, the Netherlands, Italy and France. This is a particularly sensitive issue in five regions where it is chosen by more than 40% of respondents: Lithuania, Estonia, Zeeland in the Netherlands and Thüringen and Mecklenburg-Vorpommern in Germany.

People and/or business going away (over 25%)

Table 17 – Regions where more than 25% think people and/or business going away from the region is the main issue

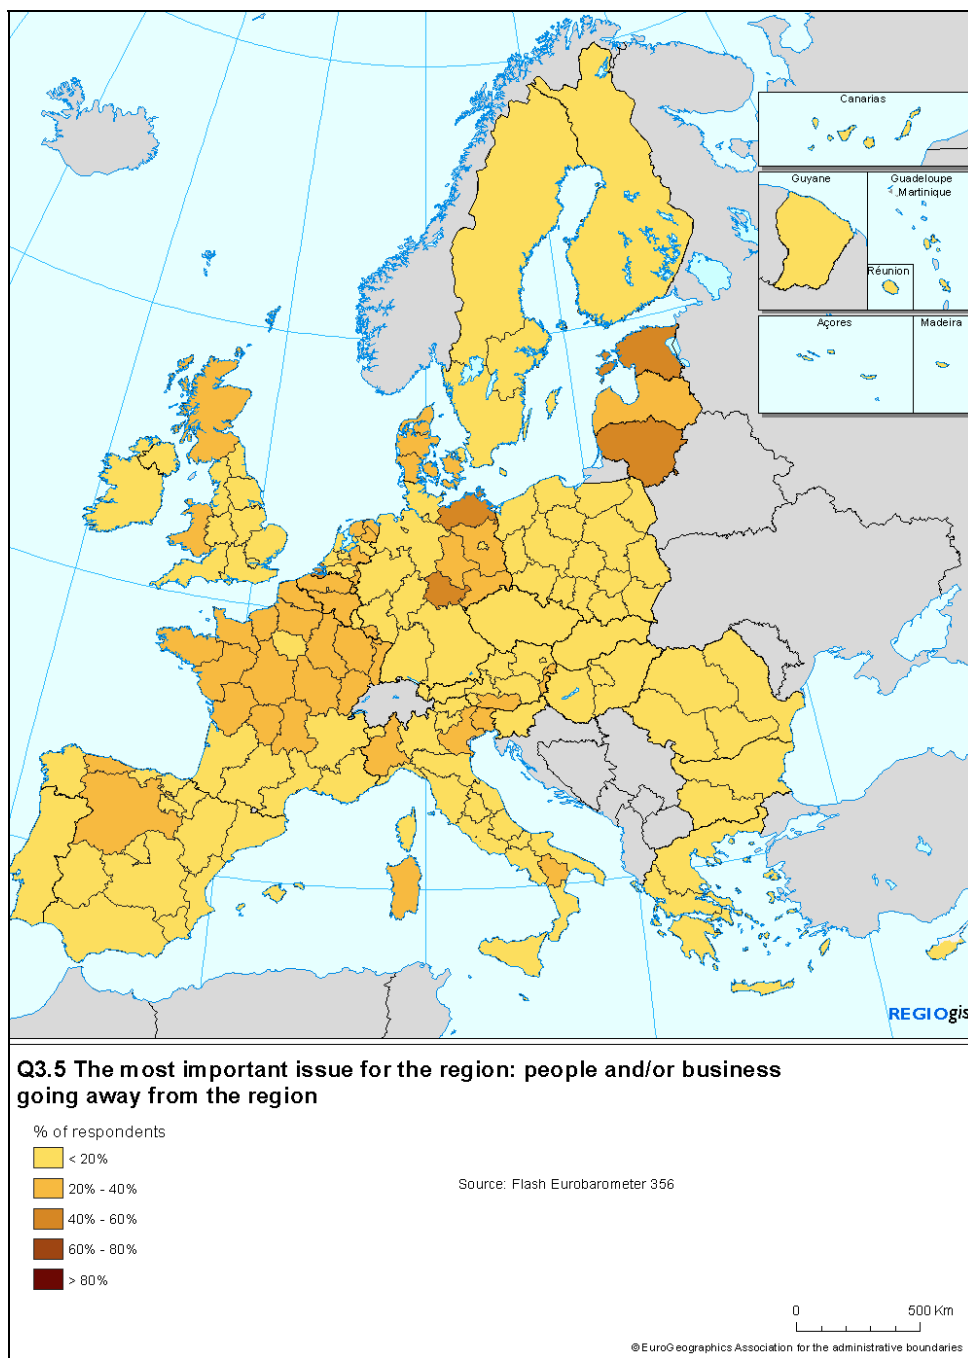

Figure 8 – Most important issues for the region: people and/or business going away from the region

The education system, crime and immigration are at approximately the same level in the list of public concerns.

The results for **education** are very diverse, ranging from 59% (Hamburg, Germany) to 1% (Molise, Italy). Only in German and Austrian regions (and in one Spanish region) is this item chosen by more than a quarter of respondents.

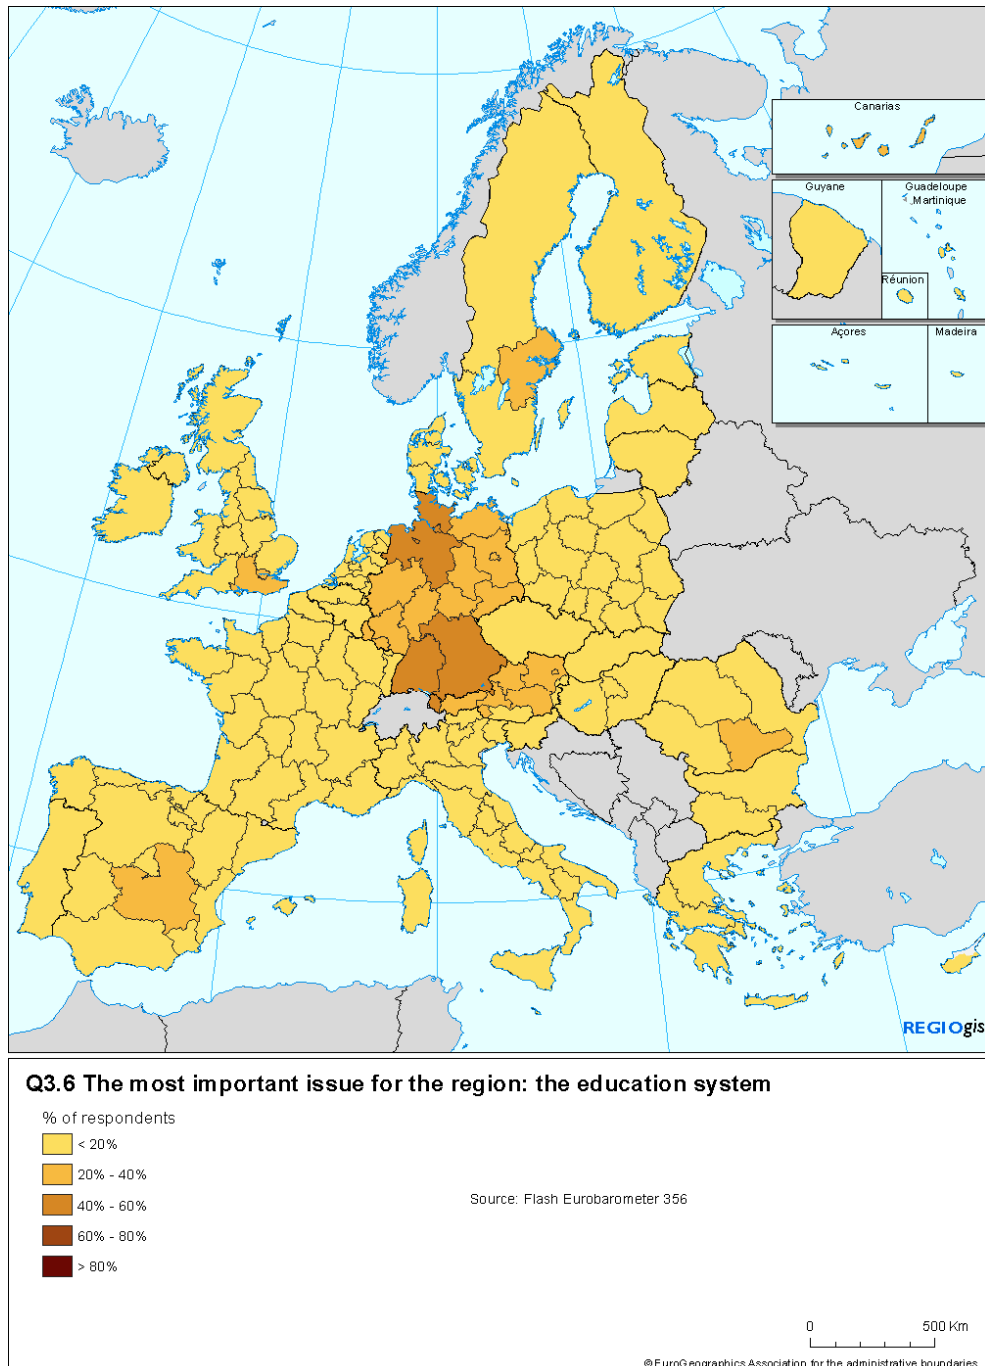

Figure 9 – Most important issues for the region: the education system

Concerns about **crime** vary from one region to another, from 58% (Guadeloupe, France) to 2% (Limousin, France, and Lubelskie, Poland).

It is a concern for more than a quarter of respondents in 26 regions mainly situated in Austria, Belgium, Germany, the Czech Republic and the Netherlands.

Crime (over 25%)			
Country results	Number of regions	Regions	
Austria	4 out of 9	Burgenland	43%
		Niederösterreich	33%
		Wien	30%
		Oberösterreich	30%
Belgium	2 out of 3	Région de Bruxelles-Capitale	35%

		Noord-Brabant	27%
United-Kingdom	2 out of 12	Noord-Holland	26%
		North West (England)	28%
		London	26%

Table 18 – Regions where more than 25% think crime is the main issue

This is a particularly sensitive topic in four regions. More than 40% of the respondents say that crime is one of the two most important issues in Guadeloupe and Guyane in France; in Burgenland in Austria; and in Flevoland in the Netherlands.

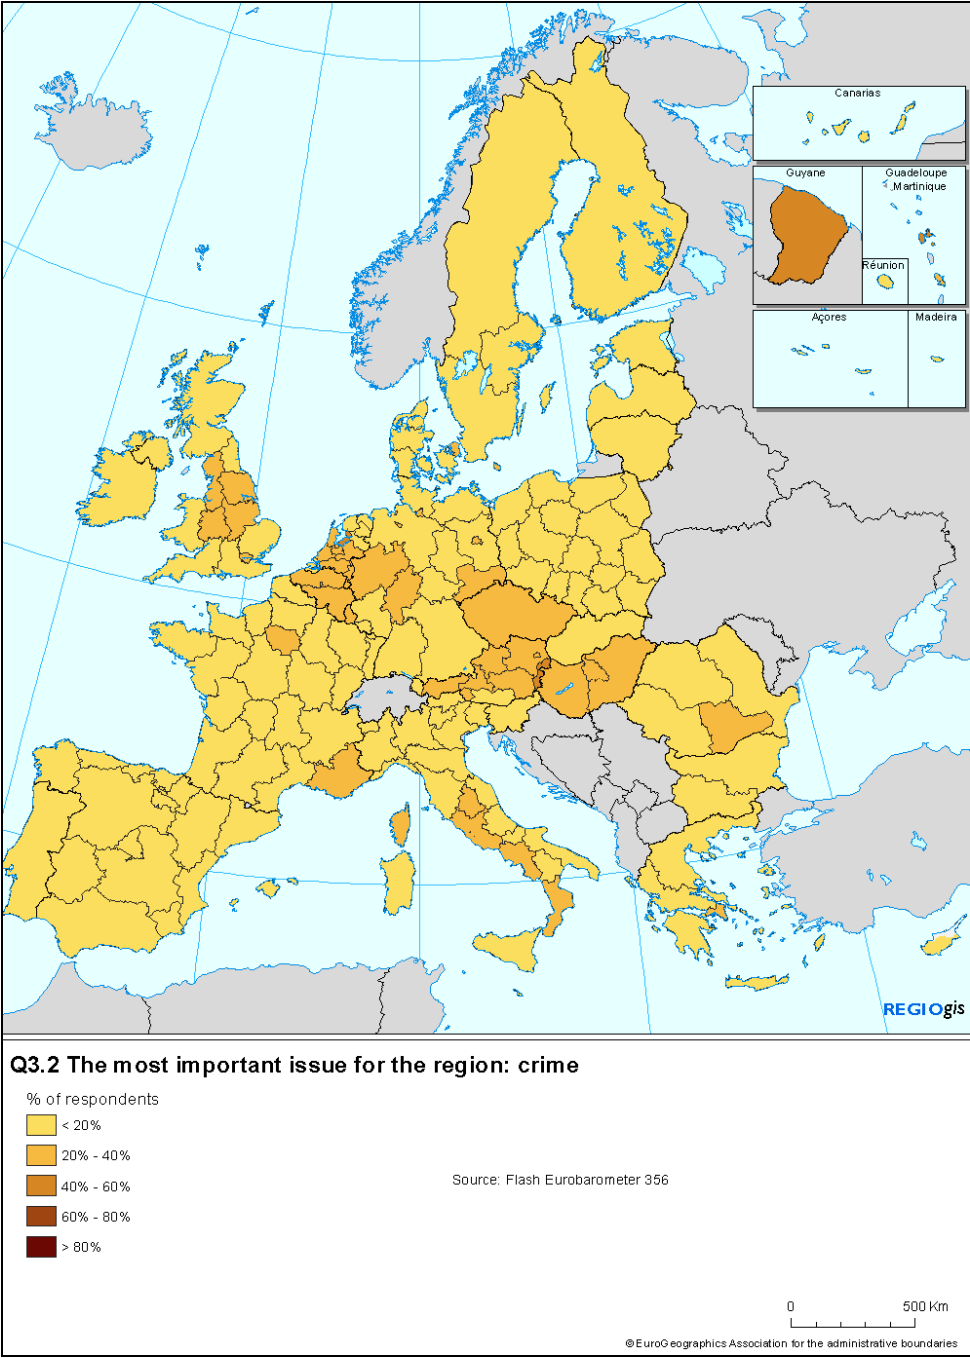

Figure 10 – Most important issues for the region: crime

Apart from in the Ciudad Autonoma de Melilla in Spain, where 53% of respondents choose this item, **immigration** is a subject of concern for no more than 36% of respondents.

In 12 regions, more than 25% of respondents think immigration is the main issue.

Immigration (over 25%)			
Country results	Number of regions	Regions	
Austria	2 out of 9	Wien	34%
		Oberösterreich	27%
Belgium	1 out of 3	Vlaams Gewest	35%

Malta	1 out of 1	Malta	36%
United Kingdom	1 out of 12	East Midlands (England)	27%

Table 19 - Regions where more than 25% think immigration is the main issue

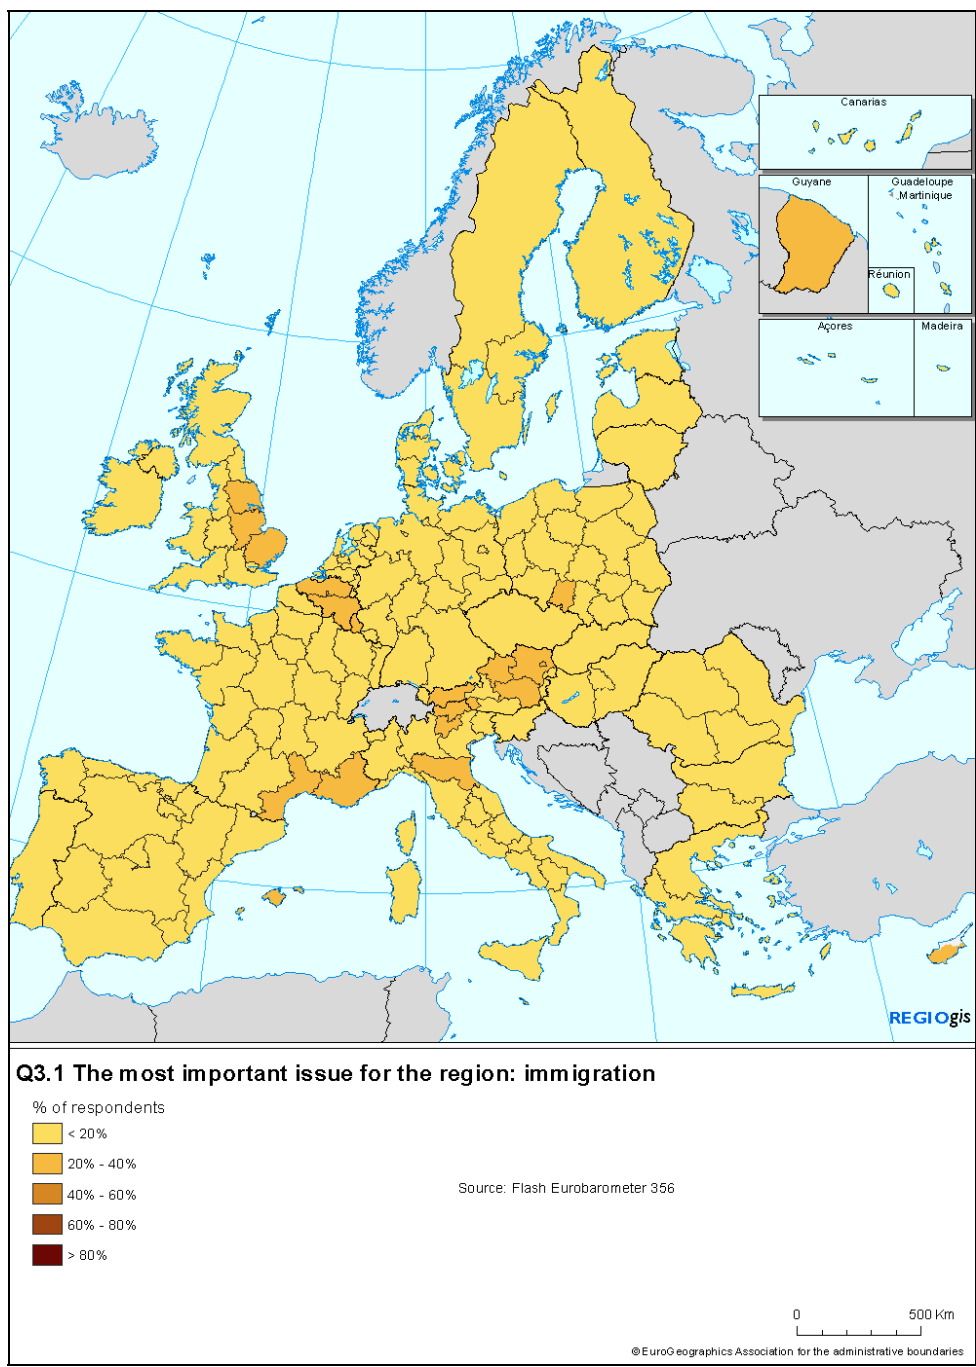

Figure 11 – Most important issues for the region: Immigration

The environment is the item least often identified as one of the two most pressing problems, which is readily understood against a deteriorating economic background.

More than 20% of respondents mentioned the environment as a priority in just three regions: Aland in Finland, Bretagne in France, Östra Sverige in Sweden.

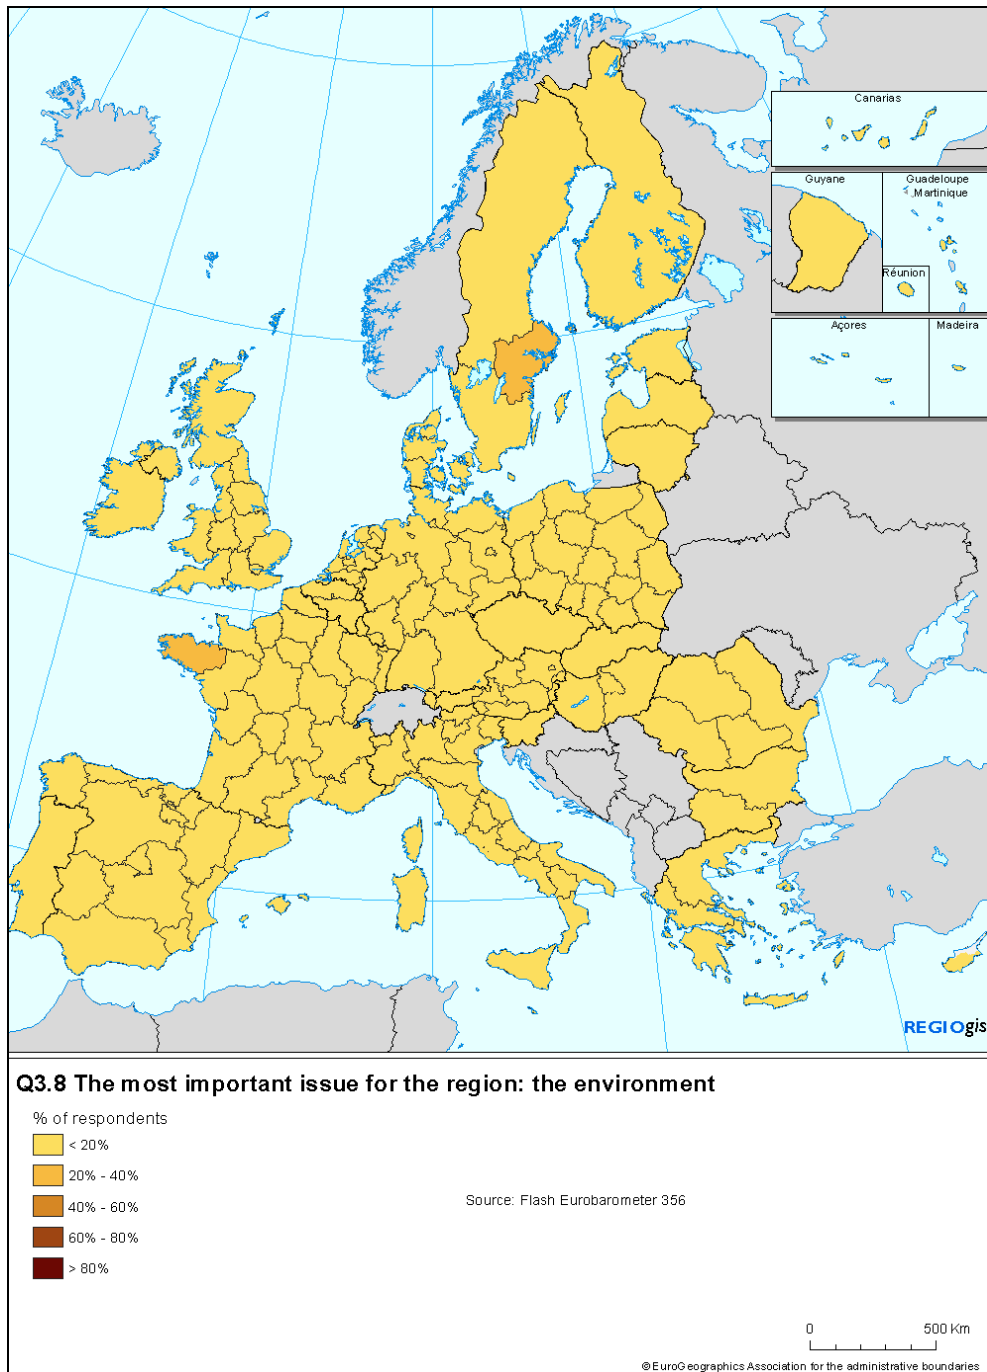

Figure 12 – Most important issues for the region: the environment

4. PERCEPTIONS OF THE EUROPEAN UNION

4.1. REPRESENTATIVES BEST PLACED TO EXPLAIN THE EU

- Regional and national representatives are the best placed to explain EU policy to citizens –

European respondents were asked to say which political representatives are best placed to explain how European policies impact their day-to-day lives from the following list:

- Regional or local representatives
- National representatives
- Members of the European Parliament
- Members of the European Commission

In 59 of the 170 regions, **regional or local representatives** are thought to be best-placed to fulfil this role, and were thus the category most often mentioned. This is particularly the case in all over the United Kingdom and in almost all French regions.

They are followed by **national representatives**, who are most often mentioned in 46 regions including particularly all of the Netherlands, Sweden and Luxembourg, and a high proportion of German regions.

Lagging far behind these two categories, **members of the European Parliament** are mentioned first in 14 regions and **members of the European Commission** in a further seven.

Members of the European Parliament are mentioned first especially in Denmark (four of five regions), Belgium (two of three), Portugal (two of three), Slovenia, Slovakia, Malta, and Lithuania.

Members of the European Commission were mentioned by the majority of respondents in Romania (three of four regions) and in the Czech Republic.

The survey also reveals a general distrust of all the institutional actors identified, particularly in southern countries. It should be noted that in no fewer than 35 regions, the most frequent answer was '**none of them**'. These regions include all of Greece, a large part of Italy, almost half of the Spanish regions, Cyprus and five of the nine Austrian regions. What is more, in 11 regions - 10 Polish regions plus Estonia - the leading response was '**Don't know**'.

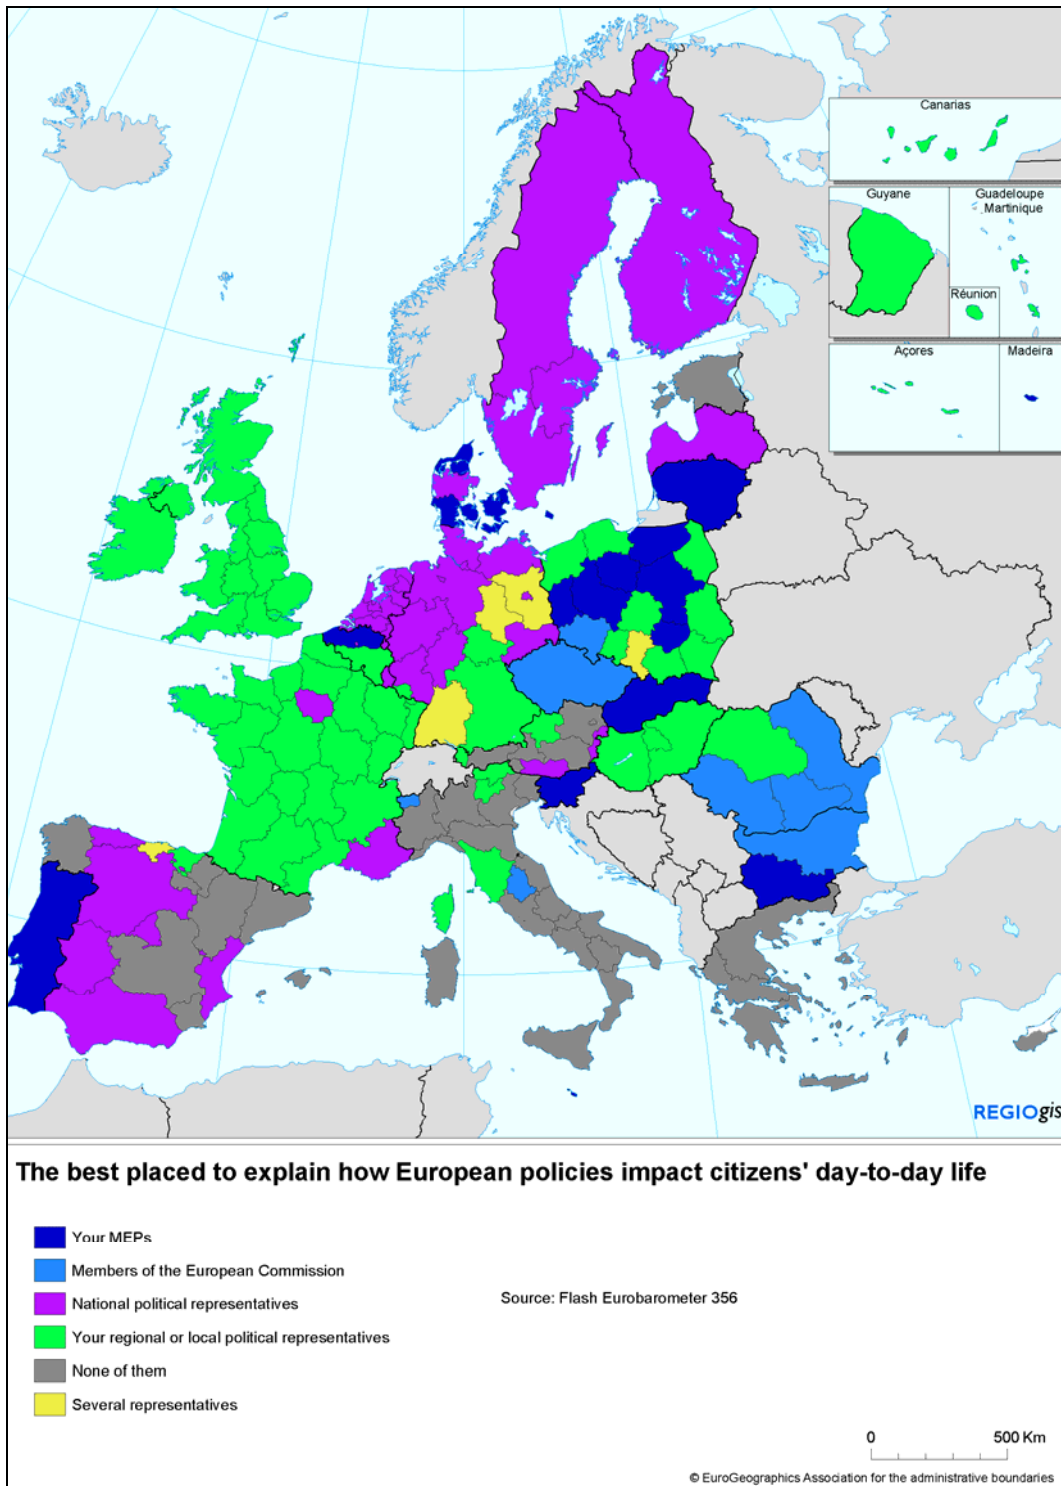

Figure 13 – Representatives best placed to explain the EU

4.2. TRUST IN THE EU

- A majority of respondents in 62 of 170 EU regions say they tend to trust the EU –

Finally, all EU respondents were asked how much trust they have in the European Union.

A majority of respondents in 61 of the 170 regions say they **tend to trust** the EU, and in eight Member States (Belgium, Denmark, Lithuania, Luxembourg, Malta and Portugal) over half of the population in all regions are of the same view.

Tend to trust (from 50%)			
Country results	Number of regions	Regions	
Austria	1 out of 9	Wien	50%
Belgium	3 out of 3	Région de Bruxelles-Capitale	58%
		Vlaams Gewest	56%
		Région Wallonne	50%

Table 20 – Regions where a majority tends to trust the EU

The 20 regions identified in bold in the table above are the EU regions with the highest level of trust, where over 55% of respondents say they **tend to trust** the EU.

However, in 72 of the 170 regions more than 50% of the population say they **tend not to trust** the EU and in 7 Member States (the Czech Republic, Cyprus, Greece, Latvia, Slovenia, Slovakia, and the United Kingdom) there is no region in which a majority of respondents say they tend to trust the EU.

The lowest level of trust, with less than a third of respondents tending to trust the EU, is found in 20 regions:

Tend to trust (less than 33%)			
Country results	Number of regions	Regions

ANNEXES

TECHNICAL SPECIFICATIONS

FLASH EUROBAROMETER 356

“Public opinion in the EU regions”

TECHNICAL SPECIFICATIONS

Between the 20th of August and the 13th of September 2012, TNS political & social, a consortium created between TNS UK and TNS opinion, carried out the survey FLASH EUROBAROMETER 356 in the NUTS 1 and 2 regions of the European Union.

It is a general public survey requested and co-ordinated by the Directorate-General for Communication ("Research and Speechwriting" Unit). The FLASH EUROBAROMETER 356 covers the population of the respective nationalities of the European Union Member States, resident in each of the 27 Member States and aged 15 years and over. (In each country) 300 interviews were carried out in each NUTS region (NUTS 1 or 2 level) except in Åland (Finland), Ciudad Autónoma de Ceuta and Ciudad Autónoma de Melilla (Spain) where 150 interviews were conducted.

NUTS 1 regions were surveyed in Belgium, Bulgaria, Czech Republic, Finland, Germany, Ireland, Greece, Hungary, Portugal, Romania, Slovenia, Slovakia, Sweden and the United Kingdom.

NUTS 2 regions were surveyed in Austria, Cyprus, Denmark, Estonia, France, Italy, Spain, Latvia, Lithuania, Luxembourg, Malta, the Netherlands and Poland.

The survey covers the national population of citizens as well as the population of citizens of all the European Union Member States that are residents in these countries and have a sufficient command of the national languages to answer the questionnaire. All interviews were carried using the TNS e-Call center (our centralized CATI system). In every country respondents were called both on fixed lines and mobile phones. The basic sample design applied in all countries is multi-stage random (probability). In each household, the respondent was drawn at random following the "last birthday rule".

TNS have developed their own RDD sample generation capabilities based on using contact telephone numbers from responders to random probability or random location face to face surveys, such as Eurobarometer, as seed numbers. The approach works because the seed number identifies a working block of telephone numbers and reduces the volume of numbers generated that will be ineffective. The seed numbers are stratified by NUTS2 region and urbanisation to approximate a geographically representative sample. From each seed number the required sample of numbers are generated by randomly replacing the last two digits. The sample is then screened against business databases in order to exclude as many of these numbers as possible before going into field. This approach provides a consistent approach across all countries.

Readers are reminded that survey results are estimations, the accuracy of which, everything being equal, rests upon the sample size and upon the observed percentage. With samples of about 1,000 interviews, the real percentages vary within the following confidence limits:

Statistical Margins due to the sampling process (at the 95% level of confidence)

QUESTIONNAIRE

Perceptions of Europeans about general issues at regional level

DK, ES, FI, FR, PT: (OUR REGION) WILL BE REPLACED AUTOMATICALLY BY THE REGION NAME (LIST FOR Q1/Q2)

ALL COUNTRIES BUT DK, ES, FI, FR, PT:I: IF NECESSARY PLEASE INSERT IN THIS CELL AN INTERVIEWER INSTRUCTION EXPLAINING WHICH TERRITORIES THE NUTS REGIONS ACTUALLY COVER IN YOUR COUNTRY.

Q1 How would you judge the current situation in each of the following?

(READ OUT - ONE ANSWER ONLY)

		Very good	Rather good	Rather bad	Very bad	Don't know/ No answer (DO NOT READ OUT)

1	The quality of life in (OUR REGION)	1	2	3	4	5
2	The situation of the economy of (OUR REGION)	1	2	3	4	5

NEW QUESTION

DK, ES, FI, FR, PT: (OUR REGION) WILL BE REPLACED AUTOMATICALLY BY THE REGION NAME (LIST FOR Q1/Q2)

ALL COUNTRIES BUT DK, ES, FI, FR, PT:I: IF NECESSARY PLEASE INSERT IN THIS CELL AN INTERVIEWER INSTRUCTION EXPLAINING WHICH TERRITORIES THE NUTS REGIONS ACTUALLY COVER IN YOUR COUNTRY.

Q2 In your opinion, in comparison with today will the next twelve months be better, worse or the same, when it comes to...?

(READ OUT - ONE ANSWER ONLY)

		Better	Worse	Same	Don't know/ No answer (DO NOT READ OUT)

1	The quality of life in (OUR REGION)	1	2	3	4
2	The situation of the economy of (OUR REGION)	1	2	3	4

NEW QUESTION

PROG Q3: ROTATE CODES 1 TO 8

DK, ES, FI, FR, PT: (OUR REGION) WILL BE REPLACED AUTOMATICALLY BY THE REGION NAME (LIST FOR Q3)

ALL COUNTRIES BUT DK, ES, FI, FR, PT:I: IF NECESSARY PLEASE INSERT IN THIS CELL AN INTERVIEWER INSTRUCTION EXPLAINING WHICH TERRITORIES THE NUTS REGIONS ACTUALLY COVER IN YOUR COUNTRY.

Q3 What do you think are the two most important issues facing (OUR REGION) at the moment?

(READ OUT – MAX. 2 ANSWERS)

Immigration	1,
Crime	2,
Economic situation	3,
Unemployment	4,
People and/or business going away from the region	5,
The educational system	6,
The environment	7,
Healthcare system	8,
Other (DO NOT READ OUT)	9,
Don't know/ No answer (DO NOT READ OUT)	10,

NEW QUESTION

Q4 I would like to ask you a question about how much trust you have in the European Union. Could you please tell me if you tend to trust it or tend not to trust it?

(ONE ANSWER ONLY)

Tend to trust	1
Tend not to trust	2
Don't know/ No answer (DO NOT READ OUT)	3

NEW QUESTION

PROG Q5: ROTATE CODE 1 TO 4

Q5 From the following political representatives, which ones are best placed to explain you how European policies impact your day-to-day life?

(READ OUT - ONE ANSWER ONLY)

Your MEPs (Members of the European Parliament)	1
Members of the European Commission	2
Your (NATIONALITY) political representatives	3
Your regional or local political representatives	4
None of them (DO NOT READ OUT)	5
All together (DO NOT READ OUT)	6
Don't know/ No answer (DO NOT READ OUT)	7
