## OBJECTIVES OF THE PROJECT

---

This project is implemented to strengthen the civil society dialogue between Turkey and the EU in order to ensure an effective protection and management of marine and coastal protected areas (MCPAs) in Turkey. With this dialogue, it is aimed to increase advocacy, communication and campaign skills of the CSOs on the south-eastern and western coast of Turkey.

## MAIN ACTIVITIES

---

- Building a network among the CSOs in the pilot areas (Antalya, Aydın, İstanbul)
- Conducting a capacity building workshop, held by the experts, in order to boost the participation capacity of the CSO network in the management of marine and coastal protected areas
- Organising 3 roundtable meetings with the EU experts in 3 pilot areas in order to identify and prioritise advocacy and participatory management issues for CSOs
- Preparing guidelines for participatory and sustainable management of marine and coastal protected areas
- Organising a study visit
- Preparing a roadmap to share the project outputs, disseminate the best practices

## EXPECTED OUTPUTS

---

- At least 10 CSOs will participate in the project's networking meeting.
- Education materials will be distributed to the relevant stakeholders and published online.
- A roadmap / action plan will be prepared for the national network.
- The cooperation between the CSOs in 3 pilot areas and within the CSO network and their counterparts in the EU member states will increase.
- The influence of civil society in the local government structures in the pilot areas of the Project will increase.

# OBJECTIVES OF THE PROJECT

---

The project is implemented to increase cooperation between the CSOs working in the field of pesticide, environment and health and local governments in Turkey and the EU member states. With this cooperation, it is aimed to contribute to the public health and environmental protection through reducing the use of pesticides.

# MAIN ACTIVITIES

---

- Conducting a situation analysis on the use of pesticide in Turkish municipalities
- Conducting research on and compiling the best practices in the EU in relation to policies, strategies, methods and techniques
- Conducting study visits to the best practices in the EU
- Preparing a handbook on pesticide-free towns for local governments
- Conducting promotional and dissemination activities

# EXPECTED OUTPUTS

---

- A situation analysis will be prepared for pesticide usage in Turkish municipalities.
- 85 municipalities will be surveyed.
- A commitment will be signed with 10 municipalities.
- A hand-book is going to be prepared for local administrations about towns that does not include pesticides.
- It will be ensured that 50,000 people will provide their support through petitions.
- 14 representatives from municipalities will visit the EU best practices.
- 2.000.000 people will be reached through website, social media, press releases, published news.
- 130 CSOs in Turkey will be in contact with PAN Europe and its members.
- 40 participants will take part in the webinar of PAN Europe.
- 44 municipalities will be in contact with PAN Europe.
